**Department of Transportation  
2015-17 Biennial Budget Request  
STATUTORY MODIFICATIONS**

**DIN:** 5301

**TOPIC** Modifications needed for Southeast WI Freeway Megaprojects Program

**DESCRIPTION OF CHANGE:**

The Department requests the following modifications to define and enumerate three additional projects (I-94 East West Project, I-94 East West Freeway in Waukesha County and I-894 Bypass and Hale Interchange Project) in the Southeast Wisconsin Freeway Megaprojects Program.

**JUSTIFICATION:**

The freeways in southeastern Wisconsin were built between 1950 and 1970. When the freeway was originally built, the pavement was designed to last approximately 25 years. The first repave was planned to last 15 years and the second 10 years for an overall lifecycle of approximately 50 years. While not recommended, a third repave will produce an additional six to eight years of additional life. Due to budgetary constraints, the Department has repaved many roads within the project boundaries for a third time.

The Department has a comprehensive 15 year vision for the southeast region. This vision will reconstruct all interstate segments in Kenosha, Milwaukee, Racine and Waukesha counties, as well as a portion of the interstate in Washington County (105 miles of interstate) that are in need of reconstruction by 2032. The first step towards accomplishing that vision is to enumerate two additional regional projects as Southeast Wisconsin Freeway Megaprojects. Those two projects are the I-94 East West Project and I-894 Bypass and Hale Interchange Project. These statutory modifications will define and enumerate the projects. Enumeration of these two projects will allow the Department to determine the most effective schedule for reconstruction and begin preliminary design work.

The Department requests the following modifications:

Renumber 84.0145 (1) (a) Wis. Stats., to 84.0145 (1) (ap) Wis. Stats.,

Create in 84.0145 (1) (ad) Wis. Stats., to read

(ad) "I 894 bypass and Hale interchange project" means the reconstruction of the I 894 freeway in Milwaukee County from Lincoln Avenue to 27th Street and the I 43 freeway from Moorland Road to I 894, including all service interchanges and the system interchange of I 894 and I 43, also known as the Hale interchange.

Create 84.0145 (1) (a) (ah) Wis. Stats., to read

(ah) "I 94 east-west project" means the reconstruction of the I 94 freeway in Milwaukee County from 70th Street to 16th Street, including all service interchanges and the system interchange with USH 41, also known as the stadium freeway interchange

Create 84.0145 (1) (a) (at) Wis. Stats., to read

"I 94 Waukesha County project" means the reconstruction of the I 94 freeway from Willow Glen Road in Jefferson County to STH 100 in Milwaukee County, including all interchanges. The I 94 Waukesha County project shall be considered a southeast Wisconsin megaproject in its entirety, notwithstanding the western terminus of the project is located in Jefferson County.

Create 84.0145 (3) (b) 3., 4., and 5. Wis. Stats., to read

3. The I 894 bypass and Hale interchange project.
4. The I 94 east-west project.
5. The I 94 Waukesha County project

Current law specifies that southeast Wisconsin freeway megaprojects are highway projects on southeast Wisconsin freeways that have a total cost of more than \$500,000,000, as adjusted annually for inflation by DOT. This bill authorizes DOT to provide funding for construction of the I 894 bypass and Hale interchange project, the I 94 east-west project, and the I 94 Waukesha County project.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.

Please remove the enumeration of the I-894 and I-94 Waukesha County project. The only project that should be enumerated in the Southeast Megaprojects program in this biennium should be the I-94 East/West project.
