Fiscal Estimate Narratives DSPS 4/2/2015

LRB Number	15-1723/2	Introduction Number	AB-0143	Estimate Type	Original
Description					
Regulation of transportation network companies, providing an exemption from emergency rule					
procedures, granting rule-making authority, and providing a penalty					

Assumptions Used in Arriving at Fiscal Estimate

State Impact: According to the Division Administrators and the Budget Manager, this proposed legislation will have a fiscal impact on DSPS. This legislation will incur increased costs associated with creating a new business credential; creating forms, updating the website, setting up the credential in the ICE system, and developing and promulgating administrative rules. There will be ongoing costs associated with IT support and staff training.

PLEASE NOTE: It is difficult to attribute the long-term true costs associated with the regulation of transportation network companies, specifically as it involves investigating and resolving complaints when the demand for services is unknown. DSPS does not have a clear idea regarding the true impact on the department. In two years, after data is collected, DSPS will have a better idea regarding impact of this new legislation and will be in a better position to report on the true financial impact.

Local Impact: Yes. Indeterminate. DSPS is unable to determine the impact on local municipalities as the department does not know what the full demand for services will be at this time.

Long-Range Fiscal Implications
