1 AN ACT ...; **relating to:** Agricultural Producer Security Council members,
 2 expenses for inspection and certification of grain, the American Society for
 3 Testing and Materials, service of process for the Department of Agriculture, ^{move}
 4 Trade and Consumer Protection, and making an appropriation (suggested as
 5 remedial legislation by the Department of Agriculture, Trade and Consumer
 6 Protection); eliminating a reporting requirement for local ordinances relating
 7 to pesticides (suggested as remedial legislation by the Department of
 8 Agriculture, Trade and Consumer Protection).

Analysis by the Legislative Reference Bureau

***** ANALYSIS FROM -2897/P2 *****

note

This bill updates the names of two organizations that must be represented as members of the Agricultural Producer Security Council in the Department of Agriculture, Trade and Consumer Protection (DATCP). The bill updates Wisconsin Agri-Service Association, Inc. to Wisconsin Agri-Business Association, Inc., and updates Wisconsin Federation of Cooperatives to Cooperative Network.

The bill also makes changes to an appropriation to DATCP regarding moneys received for the inspection and certification of grain received in or shipped from the port of Milwaukee, the port of Superior, or other locations in the state. The bill

removes the port of Milwaukee and other locations in the state from this appropriation.

In addition, this bill allows service of process from DATCP to be made by registered mail to the address that the party provided to DATCP or the Department of Financial Institutions, which is the department responsible for filing business organization documents. Under current law, service may be made by registered mail to the address that the party provided to DATCP or the secretary of state.

Finally, this bill updates the name of the American Society for Testing and Materials to ASTM International. Under current law, standards set by that organization are used in relation to designating certain fuels as diesel-replacement and gas-replacement renewable fuels, to offering fuel pump tax credits for certain renewable fuels, to inspecting gasoline and other petroleum products, to advertising fuel as biodiesel, to testing cigarettes for compliance with fire safety performance standards, to registering laboratories to perform tests in connection with certain programs, and to determining certain cargo tank motor vehicle that must stop before crossing railroad tracks.

Finally, this bill eliminates the requirement under current law that a city, village, town, or county, no later than March 1, 1994, provide the Department of Agriculture, Trade and Consumer Protection with a copy of any ordinance relating to pesticides that was enacted prior to December 29, 1993.
