Yes, I believe that would be consistent with the purpose of the bill. Any thoughts, John?

On further thought, this would not cover the sharp tailed grouse, which is not endangered or threatened. Is it your intent to allow the collection of naturally shed feathers from a sharp tailed grouse only in instances when and where the grouse can legally be hunted?

John and Tim:

I would recommend: "The naturally shed feathers of a grouse not listed as endangered or threatened under s. 29.604 (3), partridge, pheasant, quail, or wild turkey."

I'll go ahead with this unless I hear otherwise from you.

Good morning Elisabeth,

I've just received notice that the Assembly Ag Committee will hold an executive session on AB 579 on Wednesday, January 20.

The DNR raised a concern over a portion of the bill, and I'm requesting that a simple amendment be drafted in an attempt to address that (see attachment).

So, is it possible to insert language on Page 2, Line 1, between the words "a" and "grouse", to say "non-protected, non-threatened"? I am open to considering your other recommendations, but I'm looking for a quick turnaround. Also, you should anticipate Sen. Tiffany's office to make a request that the same amendment be drafted for Senate Bill 435.

This is our most urgent drafting request as of this time.

Sincerely,

John Flynn  
Office of Rep. Ed Brooks
