Description Ratification of the Interstate Medical Licensure Compact and making appropriations					

Assumptions Used in Arriving at Fiscal Estimate

According to the Division Administrators and the Budget Director, this legislation will have a SIGNIFICANT fiscal impact on DSPS. There will be one-time costs associated with creating new components within the database system which may include, but not be limited to, creating new license(s) and certificates, updating data tables, creating data trigger print activities, creating reports and multistate indicators; updating existing forms; creating new compact expedited forms; creating requirements and checklists; testing any compact systems; and creating new administrative rules to accommodate the new compact. There will be external costs associated with interstate compact member fees; the fees have not been disclosed therefore the costs have not yet been determined. NOTE: There will be revenue collected however, at this time, the number of potential compact license credential holders is unknown, therefore the amount of revenue collected to support and cover the compact licensure related activities and expenses cannot be determined.
