AN ACT to amend 118.30 (2) (b) 3. to 6.; and to create 115.385 (1m) and 118.303 of the statutes; relating to: allowing a pupil’s parent or guardian to opt out of certain statewide examinations and providing information about mandatory pupil examinations.

Analysis by the Legislative Reference Bureau

Under the bill, upon request of a parent or guardian, a school board, operator of an independent charter school, and governing body of a private school participating in a parental choice program must excuse a pupil enrolled in any grade from 3 to 12 from taking any examination designed to measure pupil attainment of knowledge and concepts (knowledge and concepts examination). Under current law, upon request from a parent or guardian, a school board, operator of an independent charter school, and governing body of a private school participating in a parental choice program must excuse a pupil in 4th, 8th, 9th, 10th, or 11th grade from taking the knowledge and concepts examination adopted by the state superintendent of public instruction that is required to be administered to pupils in that grade. The bill also prohibits the Department of Public Instruction (DPI) from considering how many pupils enrolled in a school or school district have been excused from taking any knowledge and concepts examination for purposes of the annual school and school district accountability report published by DPI.

Finally, the bill requires each school board, operator of an independent charter school, and governing body of a private school participating in a parental choice program to provide the parent or guardian of each pupil enrolled in a public school
in the school district, the independent charter school, or the private school, respectively, and to post on its Internet site, if any, a written summary of information about certain examinations that will be administered to pupils enrolled in that school.
