1 An Act to amend 20.255 (1) (kd) and 115.36 (2) (a); and to create 115.36 (2) (f) and 115.36 (2m) of the statutes; relating to: providing training to school board staff in the screening, brief intervention, and referral to treatment program.

Analysis by the Legislative Reference Bureau

Current law requires the Department of Public Instruction (department) to develop and conduct training programs for the professional staff of public, private, and tribal schools in alcohol and other drug abuse prevention, intervention, and instruction programs. This bill requires the department to include the screening, brief intervention, and referral to treatment (SBIRT) program in its alcohol and other drug abuse intervention and instruction programs beginning six months after the effective date of the bill and to offer SBIRT training to a school district upon the district’s request. If a school district requests training in SBIRT, the school district must administer the SBIRT program to all pupils enrolled in the school district in at least one of the grades 6 to 12. Finally, the bill requires the department to submit, by January 1, 2017, a report to the Joint Committee on Finance regarding implementation and efficacy of the SBIRT program and making recommendations about expanding the program.
