1 AN ACT to amend 256.01 (6), (7), (8) and (9) and 256.15 (2) (a); and to create 256.15 (2) (c) of the statutes; relating to: exempting out-of-state emergency medical services personnel from licensure requirements.

Analysis by the Legislative Reference Bureau

This bill permits an out-of-state person providing emergency medical services (EMS) to act as an ambulance service provider, emergency medical technician, or first responder without holding a license, training permit, or certificate in this state when responding to a request for mutual aid if the person holds a valid license, training permit, or certificate in the state from which that person is responding. As used in this bill, “emergency medical technician” refers to an emergency medical technician–basic, emergency medical technician–intermediate, or emergency medical technician–paramedic. Generally, under current law, a person may not act as or advertise for the provision of services as an ambulance service provider, emergency medical technician, or first responder unless that person holds the required Wisconsin license, training permit, or certificate. This bill creates a limited exemption from that requirement for those holding appropriate credentials in another state when they respond from that state to a request for mutual aid from within this state.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

(8) “Emergency medical technician — paramedic” means an individual who is specially trained in emergency cardiac, trauma and other lifesaving or emergency procedures in a training program or course of instruction prescribed by the department and who is examined and licensed as an emergency medical technician — paramedic under s. 256.15 (5) or is exempt under s. 256.15 (2) (b) or (c).

(9) “First responder” means a person who is certified by the department as a first responder under s. 256.15 (8) (a) or is exempt under s. 256.15 (2) (b) or (c) and who, as a condition of employment or as a member of an organization that provides emergency medical care before hospitalization, provides emergency medical care to a sick, disabled or injured individual before the arrival of an ambulance, but who does not provide transportation for a patient.
