8 2013 Wisconsin Act 1, section 103; relating to: the regulation of ferrous
9 metallic mining and related activities.

Analysis by the Legislative Reference Bureau

Under current law, the Department of Natural Resources (DNR) regulates mining for metallic minerals. Before enactment of 2013 Wisconsin Act 1, the laws under which DNR regulated metallic mining applied to mining for ferrous minerals (iron) and mining for nonferrous minerals, such as copper or zinc. 2013 Wisconsin Act 1 created new statutes for regulating iron mining and modified the laws regulating metallic mining so that they cover only mining for nonferrous minerals.

This bill changes the laws relating to the regulation of iron mining so that the laws are substantially the same as they existed before enactment of 2013 Wisconsin Act 1. Under this bill, the laws under which DNR currently regulates metallic mining, other than iron mining, apply to mining for iron and to mining for nonferrous minerals.

Under current law, certain forested land may be designated as managed forest land (MFL) under a program administered by the Department of Natural Resources (DNR). Under this program, the owner of land designated as MFL makes an annual acreage share payment that is lower than, and in lieu of, the property taxes that normally would be payable. In exchange, the landowner must comply with certain forestry practices and have a management plan prepared for the land. The owner must also open the MFL to the public for hunting, fishing, hiking, sight-seeing, and cross-country skiing, but may designate up to a certain number of acres as being closed to public access. For MFL that is designated as closed, the owner must make an additional payment per acre. If the MFL meets the eligibility requirements under the program, which include minimum acreage requirements and requirements as to how much merchantable timber can be produced on the land, DNR approves the application and issues an order designating the land as MFL.

2013 Wisconsin Act 81 made changes to the MFL program as it relates to ferrous mining activities. 2013 Wisconsin Act 81 generally provided that the
requirements with regard to public access to MFL do not apply to an area of land within a certain distance of a proposed iron mining site. 2013 Wisconsin Act 81 also required an MFL owner to make an additional payment per acre for land located in a proposed ferrous mining site if the land is not open to all of the outdoor activities for which public access is generally required. This bill changes the laws with respect to ferrous mining sites located on MFL so that the laws are substantially the same as they existed before enactment of 2013 Wisconsin Act 81.

For further information see the state and local fiscal estimate, which will be printed as an appendix to this bill.

of the preceding month. The statement shall show the total amount of tons or pounds
of each kind of nonferrous metallic minerals ore produced; if sold, then to whom sold,
giving the date of sale, date of delivery to any railroad company, naming the company,
and the station where delivered or billed for shipment; the name and address of the
purchaser; the price per ton at which sold and the total value of each kind of
nonferrous metallic minerals ore so sold. The books shall be always open to any
owner, lessor, licensor or stockholder, if the owner, lessor or licensor is a corporation,
and to any person or stockholder interested in any such mining operations, for the
purpose of inspection and taking copies thereof or abstracts therefrom. Any person
and every officer, agent or employee of any thereof, who violates this section, or who
makes any false or incomplete entries on any such books or statements, shall be fined
not less than $100 or imprisoned in the county jail for not more than 3 months or both.

SECTION 57. 107.03 of the statutes is amended to read:

107.03 Conflicting claims. In case of conflicting claims to a crevice or range
bearing nonferrous metallic ores or minerals the court may continue any action to
enforce a claim or grant any necessary time for the purpose of allowing parties to
prove up their mines or diggings if it satisfactorily appears necessary to the ends of
justice. In such case the court or judge may appoint a receiver and provide that the
mines or diggings be worked under the receiver’s direction, subject to the order of the
court, in such manner as best ascertains the respective rights of the parties. The
nonferrous metallic ores or minerals raised by either party pending the dispute shall
be delivered to the receiver, who may, by order of the court or judge, pay any rent or
other necessary expenses therefrom.

Section 58. 107.04 of the statutes is amended to read:

107.04 Lessee’s fraud; failure to work mine. Any miner who conceals or
disposes of any nonferrous metallic ores or minerals or mines or diggings for the
purpose of defrauding the lessor of rent or who neglects to pay any rent on nonferrous
metallic ores or minerals raised by the miner for 3 days after the notice thereof and
claim of the rent, shall forfeit all right to his or her mines, diggings or range; and the
landlord after the concealment or after 3 days have expired from the time of
demanding rent, may proceed against the miner to recover possession of the mines
or diggings in circuit court as in the case of a tenant holding over after the
termination of the lease. If a miner neglects to work his or her mines or diggings
according to the usages of miners, without reasonable excuse, he or she shall likewise
forfeit the mines or diggings and the landlord may proceed against the miner in like
manner to recover possession of the mines or diggings.

Section 59. 107.11 of the statutes is amended to read:

107.11 Account of nonferrous metallic minerals ore received. Every
person operating a metal recovery system and every purchaser of nonferrous
metallic ores and minerals shall keep a substantially bound book, ruled into suitable
columns, in which shall be entered from day to day, as nonferrous metallic ores or minerals are received, the following items: the day, month and year when received; the name of the person from whom purchased; the name of the person by whom hauled and delivered; name of the owner of the land from which the nonferrous metallic ores or minerals were obtained, or if not known, the name of the diggings or some distinct description of the land. The bound book shall be kept at the furnace or at the usual place of business of such person or purchaser or his or her agent in this state, and shall be open to authorized representatives of the department of revenue at reasonable times for inspection and taking extracts.

**SECTION 60.** 107.12 of the statutes is amended to read:

107.12 **Penalty.** If any person operating a metal recovery system or purchaser of nonferrous metallic ores and minerals or the agent of any such person or purchaser doing business fails to keep such a book or to make such entries as required under s. 107.11 or unreasonably refuses to show the book for inspection or taking extracts or makes false entries in the book he or she shall forfeit $10 for each offense, one-half to the use of the prosecutor; and each day such failure or refusal continues shall be deemed a distinct and separate offense.

**SECTION 61.** 107.20 (1) of the statutes is amended to read:

107.20 (1) Any provision of an exploration mining lease entered into after April 25, 1978, granting an option or right to determine the presence, location, quality or quantity of nonferrous metallic metalliferous minerals shall be limited to a term not exceeding 10 years from the date on which the exploration mining lease is recorded in the office of the register of deeds of the county where the property is located, except that any provision of an exploration mining lease entered into after April 25, 1978, granting an option or right to determine the quality and quantity of nonferrous
metallic metalliferous minerals under a prospecting permit shall be limited to a term
not exceeding 10 years from the date that the lessee applies for a prospecting permit
under s. 293.35, if the lessee applies for the prospecting permit within 10 years from
the date on which the exploration mining lease is recorded in the office of the register
of deeds of the county where the property is located.

SECTION 62. 107.20 (2) of the statutes is amended to read:

107.20 (2) Any provision of an exploration mining lease entered into after April
25, 1978, granting an option or right to develop or extract nonferrous metallic
metalliferous minerals shall be limited to a term not exceeding 50 years from the date

107.30 (15) “Prospecting” means engaging in the examination of an area for the
purpose of determining the quality and quantity of minerals, other than for
exploration but including the obtaining of an ore sample, by such physical means as
excavating, trenching, construction of shafts, ramps, and tunnels and other means,
other than for exploration, which the department of natural resources, by rule,
identifies, and the production of prospecting refuse and other associated activities.
“Prospecting” does not include such activities when the activities are, by themselves,
intended for and capable of commercial exploitation of the underlying ore body. The fact that prospecting activities and construction may have use ultimately in mining, if approved, does not mean that prospecting activities and construction constitute mining within the meaning of sub. (8), provided such activities and construction are reasonably related to prospecting requirements has the meaning given in s. 293.01 (18).

**SECTION 65.** 107.30 (16) of the statutes is amended to read:

107.30 (16) “Prospecting site” means the lands on which prospecting is actually conducted as well as those lands on which physical disturbance will occur as a result of such activity has the meaning given in s. 293.01 (21).

**SECTION 66.** 160.19 (12) of the statutes is amended to read:

160.19 (12) The requirements in this section shall not apply to rules governing an activity regulated under ch. 293 or subch. III of ch. 295, or to a solid waste facility regulated under subch. III of ch. 289 which is part of an activity regulated under ch. 293 or subch. III of ch. 295, except that the department may promulgate new rules or amend rules governing this type of activity, practice or facility if the department determines that the amendment or promulgation of rules is necessary to protect public health, safety or welfare.

**SECTION 67.** 196.491 (3) (a) 3. b. of the statutes is amended to read:

196.491 (3) (a) 3. b. Except as provided under subd. 3. c., within Within 20 days after the department provides a listing specified in subd. 3. a. to a person, the person shall apply for the permits and approvals identified in the listing. The department shall determine whether an application under this subd. 3. b. is complete and, no later than 30 days after the application is filed, notify the applicant about the determination. If the department determines that the application is incomplete, the
notice shall state the reason for the determination. An applicant may supplement
and refile an application that the department has determined to be incomplete.
There is no limit on the number of times that an applicant may refile an application
under this subd. 3. b. If the department fails to determine whether an application
is complete within 30 days after the application is filed, the application shall be
considered to be complete. Except as provided in s. 30.025 (4), the department shall
complete action on an application under this subd. 3. b. for any permit or approval
that is required prior to construction of a facility within 120 days after the date on
which the application is determined or considered to be complete.

operation the person will consume no less than 70% of the aggregate kilowatt hours
output from the equipment and facilities in manufacturing processes at the site
where the equipment and facilities are located or in ferrous mineral mining and
processing activities governed by subch. III of ch. 295 at the site where the equipment
and facilities are located.

SECTION 71. 281.36 (3g) (h) 2. of the statutes is amended to read:
281.36 (3g) (h) 2. If, within 30 days after an application under subd. 1. is
received by the department, the department does not either request additional
information or inform the applicant that a wetland individual permit will be required
as provided in par. (i), the discharge shall be considered to be authorized under the
wetland general permit and the applicant may proceed without further notice, hearing, permit, or approval if the discharge is carried out in compliance with all of the conditions of the general permit, except as provided in s. 295.60 (3) (b).
