2015 ASSEMBLY BILL 549

AN ACT to renumber and amend 448.50 (4) (b); to amend 462.04; and to create 448.56 (7) of the statutes; relating to: the authority of physical therapists to order X-rays and granting rule-making authority.

Analysis by the Legislative Reference Bureau

This bill allows for X-rays to be ordered by physical therapists who satisfy certain criteria.

Under current law, X-rays may generally only be performed if authorized pursuant to a prescription or order issued by one of several types of licensed medical professionals specified under current law. This bill adds licensed physical therapists to this list of licensed medical professionals authorized to prescribe or order the use of diagnostic X-ray equipment. The bill provides, however, that a licensed physical therapist may only order X-rays if the physical therapist satisfies one of certain conditions specified in the bill. In addition, the bill provides that the physical therapist must, when ordering X-rays, communicate with the patient’s primary care physician or an appropriate health care provider to ensure coordination of care, unless certain criteria that are specified in the bill apply.

For further information see the state fiscal estimate, which will be printed as an appendix to this bill.
