AN ACT to create 348.05 (2) (e), 348.15 (10) and 348.16 (3) (c) of the statutes; relating to: the width and weight limits of certain motor vehicles operated on a highway.

Analysis by the Legislative Reference Bureau

This bill creates vehicle weight and width exceptions allowing limited operation on the highway of certain logging vehicles without limitation on weight and with a width of up to 12 feet.

Under current law, unless an exception applies, no person may operate on a highway, without a permit, any vehicle that exceeds certain statutory size or weight limits. Unless an exception applies, a person may not, without a permit, operate on a highway any vehicle having a total width in excess of eight feet six inches. Statutory weight limits depend in part on the type and configuration of the vehicle.

This bill creates vehicle weight and width exceptions for skidders, forwarders, harvesters, and wheeled feller bunchers operated for logging purposes and operated on the highway for a distance of 0.5 miles or less under which these vehicles may be operated, without a permit, at a width of up to 12 feet and without limitation on weight if unladen.

Under current law, if any bill introduced in either house of the legislature directly or indirectly establishes an exception to vehicle weight limits, the Department of Transportation (DOT) must prepare a report, containing specified information, relating to the bill within six weeks after the bill is introduced and before any vote is taken on the bill.
This bill directs DOT not to prepare such a report on this bill. For further information see the state and local fiscal estimate, which will be printed as an appendix to this bill.
