Analysis by the Legislative Reference Bureau
This bill amends the 2015–17 Authorized State Building Program to add a project to construct a medical college campus in the city of Jefferson. The bill authorizes, after July 1, 2016, a maximum of $25,000,000 either from available surplus in the building program or in general fund supported borrowing or from a combination of the two to aid in the construction of the campus. The bill requires that The College of Osteopathic Medicine, Inc. secure at least $75,000,000 from nonstate revenue sources before the building commission may approve the state funding. The state funding commitment for construction of the campus is in the form of a construction grant to The College of Osteopathic Medicine, Inc.

For further information see the state fiscal estimate, which will be printed as an appendix to this bill.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

The state funding commitment for the construction of the campus shall be in the form of a construction grant to The College of Osteopathic Medicine, Inc.

(c) Before approving any state funding commitment for the construction of the campus and before awarding the grant, the building commission shall determine that The College of Osteopathic Medicine, Inc. has secured additional funding commitments of at least $75,000,000 from nonstate revenue sources for construction of the campus.
