(8) (d) and 346.45 (1) (d) of the statutes; relating to: Agricultural Producer
Security Council members, expenses for inspection and certification of grain,
the American Society for Testing and Materials, service of process for the
Department of Agriculture, Trade and Consumer Protection, eliminating a
reporting requirement for local ordinances relating to pesticides, and making
an appropriation (suggested as remedial legislation by the Department of
Agriculture, Trade and Consumer Protection).

Analysis by the Legislative Reference Bureau
This bill updates the names of two organizations that must be represented as
members of the Agricultural Producer Security Council in the Department of
ASSEMBLY BILL 676

The bill also makes changes to an appropriation to DATCP regarding moneys received for the inspection and certification of grain received in or shipped from the port of Milwaukee, the port of Superior, or other locations in the state. The bill removes the port of Milwaukee and other locations in the state from this appropriation.

In addition, this bill allows service of process from DATCP to be made by registered mail to the address that the party provided to DATCP or the Department of Financial Institutions, which is the department responsible for filing business organization documents. Under current law, service may be made by registered mail to the address that the party provided to DATCP or the secretary of state.

The bill also updates the name of the American Society for Testing and Materials to ASTM International. Under current law, standards set by that organization are used in relation to designating certain fuels as diesel-replacement and gas-replacement renewable fuels, to offering fuel pump tax credits for certain renewable fuels, to inspecting gasoline and other petroleum products, to advertising fuel as biodiesel, to testing cigarettes for compliance with fire safety performance standards, to registering laboratories to perform tests in connection with certain programs, and to determining certain cargo tank motor vehicle that must stop before crossing railroad tracks.

Finally, this bill eliminates the requirement under current law that a city, village, town, or county, no later than March 1, 1994, provide DATCP with a copy of any ordinance relating to pesticides that was enacted prior to December 29, 1993.

For further information, see the NOTES provided by the Law Revision Committee of the Joint Legislative Council.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:
