Resolved by the assembly, That the committee on assembly organization shall immediately appoint a task force on gun safety technology, consisting of an equal number of members of the majority and minority parties, to study and recommend ways to implement and promote gun safety technology, “smart gun” technology, and gun personalization technology in Wisconsin. Gun violence has become a public health epidemic in Wisconsin, and this task force shall be charged with the study of proper safety technologies while still recognizing certain protections under the Second Amendment to the United States Constitution. This task force shall deliver its findings to the assembly before January 1, 2017.
