2015 SENATE BILL 320

October 14, 2015 – Introduced by Senators PETROWSKI, COWLES, LASSA and OLSEN, cosponsored by Representatives RIPP, ALLEN, T. LARSON, A. OTT and WEATHERSTON. Referred to Committee on Transportation and Veterans Affairs.

1 **AN ACT** *to amend* 348.11 (1); and *to create* 348.01 (2) (bb), 348.10 (6) and 348.11
2 (3) of the statutes; **relating to:** transport of radiological materials and
3 providing a penalty.

Analysis by the Legislative Reference Bureau

This bill limits the operation on a highway of vehicles carrying radiological materials.

Current law provides certain requirements related to loads carried by vehicles or combinations of vehicles on a highway. Among these requirements, no person may operate a vehicle on a highway unless the vehicle is so constructed and loaded as to prevent its contents from dropping, sifting, leaking, or otherwise escaping from the vehicle. A person who violates this provision may be required to forfeit not less than \$10 nor more than \$200.

Under this bill, no person may operate on a highway any motor vehicle, trailer, or semitrailer carrying a highway route controlled quantity of radiological materials without a permit issued by the Department of Transportation. A permit for the transport of radiological materials may be for a single trip or for multiple trips and must designate a route to be used by the permittee and require an escort by the state traffic patrol. A person who violates this provision may be required to forfeit not less than \$200 nor more than \$500.
