2015 SENATE BILL 515

January 6, 2016 – Introduced by Senators GUDEX, DARLING, PETROWSKI, MARKLEIN and WANGGAARD, cosponsored by Representatives NYGREN, KRUG and PETRYK. Referred to Committee on Economic Development and Commerce.

1 AN ACT to create 20.192 (1) (am) and 238.137 of the statutes; relating to: a regional revolving loan fund grant program administered by the Wisconsin Economic Development Corporation and making an appropriation.

Analysis by the Legislative Reference Bureau

This bill requires the Wisconsin Economic Development Corporation (WEDC) to establish a regional revolving loan fund grant program. Under the program, provided certain conditions are satisfied, WEDC is required to make grants to one or more of the following regional economic development organizations for the purpose of creating regional revolving loan funds:

1. Prosperity Southwest Wisconsin.
3. Milwaukee 7 Regional Economic Development Partnership.
4. The 7 Rivers Alliance.
5. Centergy, Inc.
6. New North, Inc.
7. Momentum West, Inc.

Among the conditions each of those regional economic development organizations must satisfy in order to qualify for a grant under the program is that the organization at least matches the amount of the grant with moneys the organization has raised from other sources. A regional economic development
organization must use the grant and all matching moneys only for the operation of a regional revolving loan fund. WEDC is required to approve policies and procedures for loans made from each regional revolving loan fund. The bill provides that a regional economic development organization receiving a grant under the bill may not compete with another regional economic development organization identified in the bill to make a loan to a business or other organization whose principal place of business is located in the region covered by that other regional economic development organization. A loan made from the grant funds by a regional economic development organization may be made only if the recipient of the loan has secured a primary source of funding and the loan funds will be used for working capital, purchasing equipment, building construction and improvement, land acquisition, private infrastructure improvement, or asset acquisition.

WEDC may award up to $1,000,000 in grants per state fiscal biennium to each regional economic development organization, for a total potential of $9,000,000 in grants per state fiscal biennium. The bill further authorizes WEDC to expend up to $1,000,000 per state fiscal biennium for training regional economic development organizations not qualifying for a grant in the operation of a regional revolving loan fund and for WEDC to directly operate a regional revolving loan fund itself.

The bill requires that a regional economic development organization receiving a grant under the bill must submit any information required by WEDC to measure the regional revolving loan fund's performance and compliance with the program, in addition to an annual schedule of grant expenditures required under current law. Under the bill, WEDC must annually provide all of that information to the appropriate standing committees of each house of the legislature having economic development under their purview.

For further information see the state and local fiscal estimate, which will be printed as an appendix to this bill.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:
