1 **AN ACT to create** 238.14 of the statutes; **relating to:** grants to certain small  
2 businesses that receive federal grants.

***Analysis by the Legislative Reference Bureau***

α

This bill directs the Wisconsin Economic Development Corporation (WEDC) to establish a grant program under which WEDC awards state matching grants to recipients of grants under Phase I and Phase II of the federal Small Business Innovation Research Program (SBIR) or Phase I and Phase II of the federal Small Business Technology Transfer Program (STTR).

Under the bill, the recipient of a Phase I SBIR or STTR federal grant may apply to WEDC for a state matching grant in connection with the federal grant. WEDC may award the state matching grant if the applicant satisfies certain conditions, including that the applicant's principal place of business is located, and will continue to be located for at least three years, in Wisconsin; the applicant demonstrates to WEDC that the research to be conducted in connection with the Phase I SBIR or STTR federal grant will benefit Wisconsin and that at least 51 percent of that research will occur in Wisconsin; and the applicant intends to apply for a Phase II SBIR or STTR federal grant.

The bill further authorizes any person to whom WEDC awards a state matching grant for the person's Phase I SBIR or STTR federal grant to apply to WEDC for an additional state matching grant in connection with the person's Phase II SBIR or STTR federal grant. WEDC may award such a state matching grant if the grant applicant satisfies certain additional conditions, including that the applicant demonstrates to WEDC that it completed any requirements for its Phase I SBIR or

**ASSEMBLY BILL 145**

STTR federal grant and that it has, in fact, been awarded a Phase II SBIR or STTR federal grant.

WEDC must contract with a person to whom WEDC awards a state matching grant under the bill. Among other things, the contract must include the amount of the state matching grant and must require that the state matching grant recipient submit a report to WEDC that shows its expenditures of the Phase I or Phase II federal grant, as applicable, as well as its expenditures of the state matching grant.

Under the bill, WEDC may not award a state matching grant that exceeds the lesser of \$50,000 or the amount of the Phase I or Phase II SBIR or STTR federal grant, as applicable. The bill also limits WEDC's total state matching grant awards per state fiscal year to \$300,000.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.
