<b>Description</b> Family planning services and making an appropriation		

**Assumptions Used in Arriving at Fiscal Estimate**

Current law provides \$1,742,000 GPR in FY2018 for the purpose of Women's health. This bill changes the appropriation under s. 20.435 (1)(f) from "Women's health block grant" to "Family Planning," and increases it by \$193,600 in FY2018 and FY2019. The bill also directs aids associated with the appropriation to go specifically to family planning agencies, rather than "entities which receive women's health funds."

The Department currently only provides these funds to the UW State Lab of Hygiene and local public health entities for family planning purposes, and does not foresee any changes occurring as a result of this bill.
