Cathlene,

I just left you a voicemail, but wanted to follow up with an email.

We would like a bill drafted that would require firearms dealers to move all firearms in their stores into a secure safe or hardened locked storage at the end of each business day.

Thanks,
Zach

Cathlene,

Two quick things on LRB-3860:

1. How is retail facility or retail commercial sale defined? For example would a gun collector who sells antiques guns online out of his house have to comply?
2. We want to beef up the language in the bill using the language that Minnesota uses in 624.7161 of their statutes: Subd. 2. Security measures required. After business hours when the dealer's place of business is unattended, a small firearms dealer shall place all pistols that are located in the dealer's place of business in a locked safe or locked steel gun cabinet, or on a locked, hardened steel rod or cable that runs through the pistol's trigger guards. The safe, gun cabinet, rod, or cable must be anchored to prevent its removal from the premises.

I will be in and out of the office today, so email is best.

Thanks,
Zach
