Hi Mark,

Representative Murphy would like a p-draft of a new bill based off of LRB-4480/1, with the following changes:

- Replace the role of HEAB in the bill with DWD. — move 20.235 (1) (b) § 39.417 to DWD
- Under section 3, the term “graduation” should be replaced with more specific terminology, due to the fact that “graduation” could include the attainment of graduate degrees, professional degrees, or certificates, or completion of certain non-degree programs. Instead, I recommend using something like:
  - For UW System, individuals who obtain an associate or baccalaureate degree.
  - For WTCS, individuals who obtain an associate degree, technical diploma, or successfully complete all requirements of an apprenticeship.
- Also under section 3, we need to add a start date so that individuals who received degrees decades ago aren’t eligible for the grant. Something like:
  - Initial applicability. Grants will be made available to individuals who obtain an eligible degree or complete an eligible apprenticeship after July 1, 2019.
- Strike “reside” and leave only the employed in state criterion for eligibility.
- Could you draft something that would make the grant taxable income? Representative Murphy is interested in what this would look like and how much this might save the state.
- We’d like section 4 replaced with whatever language the Governor/DOA is having LRB draft regarding the \$6.8 million for the workforce talent attraction campaign. Evan Bradtke from the Governor’s office will be sending me the language once they get it.

Department of Workforce Development

Analysis by the Legislative Reference Bureau

This bill requires the Higher Educational Aids Board to establish a ten-year program for making annual grants to individuals who paid nonresident tuition to and graduated from Wisconsin technical colleges or University of Wisconsin System universities or colleges. To be eligible for the grants, an individual must have continuously resided and been employed in Wisconsin for a period of at least two years after graduation. The bill allows an individual to receive annual grants for no more than five consecutive years in amounts equal to 10 percent of the difference between the total nonresident tuition paid by the individual and the total resident tuition the individual would have paid if the individual had been a resident. If an individual who receives a grant ceases to reside or be employed in Wisconsin, the bill provides that he or she is not eligible for any additional grants. HEAB must establish requirements and procedures for applying for and making the grants. The bill includes a sunset date that provides that the program no longer applies approximately ten years after the bill's publication. No later than six months prior to that sunset date, the bill requires HEAB to submit a report to the legislature evaluating the success of the program.

I'd like to get the bill co-sponsorship out as soon as we have the draft completed. I would say we should have it circulating sometime this week.

- The draft has been corrected to reflect the removal of the Think.Make.Happen language.
- I think the \$15 million is a placeholder so when the next budget is put together it can be referenced at that level. I don't think any funding will be able to be expended due to it only being available to those individuals who complete their educational program after July 1, 2019 and live in the state for at least two years after. **Now that I'm reviewing that I'm thinking the date should be July 1, 2017, since even then no one would be actually getting the grant until July 1, 2019.**
- I'll ask the drafter about the "paid on an individual's behalf" suggestion.
- I think the report should probably go to both the higher education committees and the workforce development committees.

Hi Rep. Murphy. I think the bill draft looks good. I do have a couple of thoughts/suggestions:

- FYI... The drafter forgot to eliminate reference to the Think.Make.Happen appropriation in the bill analysis.
- While the intent is to cap the program at \$15 million per year, I don't believe we want any funding appropriated in 17-19 biennium (as there would be no grant payments during that time period). Unless I'm reading the bill wrong, the bill appropriates \$30 million in the 17-19 biennium. Any thoughts?
- Just as suggestion: The current language on the amount the individual grant award reads "the difference between the total amount of nonresident tuition the individual paid to an eligible institution and the total amount of resident tuition the individual would have paid to the eligible institution if the individual had been a resident." Should we add the words "**or was paid on the individual's behalf**" to make it clear that the individual is still eligible to receive grant awards if their tuition was paid by a parent, guardian, etc.?
- Lastly, should the report to the Legislature required by the bill be sent to the Workforce Development Committees (rather than the education committees as currently directed by the bill)?

Also, any thought on a co-sponsorship timeline?

Thanks,  
Mike

Please review the attached bill draft related to earning in-state tuition. The following changes have been made to address previous discussions:

- DWD will administer the grant instead of HEAB.
- The term "graduation" was replaced with "complete an educational program," which is specifically defined for both UW System and WTCS.
- Only individuals who complete an educational program after July 1, 2019 will be eligible for the grant.
- The \$2 million appropriation to WEDC for "Think-Make-Happen" expansion was removed, as the Governor is requesting a \$6.8 million increasing for this program in a separate bill.

**Please note:** The drafter is also removing the section on page one referencing "Think-Make-Happen," which was removed from the actual bill.

**Also note:** I heard back from LRB that the grant would be considered taxable income. We would have to specifically insert language making it non-taxable income if that is what we'd like to do.

If you have any changes that you feel need to be made, please let me know as soon as possible.

To be eligible for the grants, an individual must have continuously resided and been employed in Wisconsin for a period of at least two years after graduation. The bill allows an individual to receive annual grants for no more than five consecutive years in amounts equal to 10 percent of the difference between the total nonresident tuition paid by the individual and the total resident tuition the individual would have paid if the individual had been a resident. ✓  
 If an individual who receives a grant ceases to reside or be employed in Wisconsin, the bill provides that the individual is not eligible for any additional grants. DWD must promulgate rules establishing requirements and procedures for applying for and making the grants. The bill includes a sunset date that provides that DWD may not award a grant approximately ten years after the bill's publication. No later than six months prior to that sunset date, the bill requires DWD to submit a report to the legislature evaluating the success of the program.

I think your recommended language changes work perfectly. I'm good with the language for the apprenticeship language and the use of "charged" in place of "assessed."

In response to your first change, for the definition of "complete an educational program," it's important to specify that the program was completed *at the technical college*. How about the following language for page 2, lines 16 to 18?

1. For an individual who attended a technical college, to obtain an associate degree or technical diploma from the technical college or successfully complete all the requirements of an apprenticeship program, as defined under s. 106.001 (4), that includes related instruction provided by the technical college.

With respect to the second change, just to be clear, it appears that you are removing the requirement that tuition was actually paid and just requiring that the institution charged tuition. Is that correct?

Also, I think tuition is "charged" rather than "assessed." Let me know if you disagree.

Hi Krista,

I have two more changes to the draft:

On Page 2 line 18. Could you delete "at the technical college" and insert "as determined by the Department of Workforce Development."

On Page three line 8, could you replace "individuals who paid nonresident tuition to eligible institutions" with "individuals who were assessed nonresident tuition by eligible institutions"

Thanks,

***Analysis by the Legislative Reference Bureau***

This bill requires the Department of Workforce Development to establish a ten-year program for making annual grants to individuals who were charged nonresident tuition by and completed an educational program, including an apprenticeship, at Wisconsin technical colleges or University of Wisconsin System universities or colleges. To be eligible for the grants, an individual must have continuously resided and been employed in Wisconsin for a period of at least two years after graduation. The bill allows an individual to receive annual grants for no more than five consecutive years in amounts equal to 10 percent of the difference between the total amount of nonresident tuition the educational institution charged the individual and the total amount of resident tuition the educational institution would have charged the individual if the individual had been a resident. If an individual who receives a grant ceases to reside or be employed in Wisconsin, the bill provides that the individual is not eligible for any additional grants. DWD must promulgate rules establishing requirements and procedures for applying for and making the grants. The bill includes a sunset date that provides that DWD may not award a grant approximately ten years after the bill's publication. No later than six months prior to that sunset date, the bill requires DWD to submit a report to the legislature evaluating the success of the program.

1           2. For an individual who attended a University of Wisconsin institution, to  
2 obtain an associate or bachelor's degree at the institution.

3           (b) "Eligible institution" means a University of Wisconsin institution or a  
4 technical college within the technical college system.

5           (c) "University of Wisconsin institution" means a college campus, as defined in  
6 s. 36.05 (6m), or a university, as defined in s. 36.05 (13).

7           (2) The department shall establish a program for making annual grants in  
8 amounts specified in sub. (4) to individuals who were charged nonresident tuition by  
9 eligible institutions, completed educational programs at those institutions after July  
10 1, 2017, and have continuously resided and been employed in this state for a period  
11 of at least 2 years after completion of those programs. An individual is eligible for  
12 an annual grant under this subsection for not more than 5 consecutive years. If an  
13 individual who receives an annual grant under this subsection ceases to reside or be  
14 employed in this state, the individual is not eligible for any additional grant under  
15 this subsection.

16           (3) Beginning in fiscal year 2019-20, from the appropriation under s. 20.445  
17 (1) (c), the department shall provide funding of up to \$15,000,000 in each fiscal year  
18 for grants under sub. (2).

19           (4) The amount of an annual grant to an individual under sub. (2) is equal to  
20 10 percent of the difference between the total amount of nonresident tuition an  
21 eligible institution charged the individual in connection with the individual  
22 completing an educational program and the total amount of resident tuition the  
23 eligible institution would have charged the individual if the individual had been a
