## 2013 SENATE JOINT RESOLUTION 84

March 13, 2014 – Introduced by Senator TIFFANY, cosponsored by Representative KULP. Referred to Committee on Senate Organization.

2017

1 **Relating to:** proclaiming May ~~2014~~ as Lyme disease awareness month.

2       Whereas, Lyme disease is a bacterial disease transmitted to humans by an  
3 infected tick commonly known as the black-legged or deer tick; and

4       Whereas, according to the Wisconsin Department of Health Services, the  
5 disease was first recognized in the United States in 1975 in Lyme, Connecticut; and

6       Whereas, Lyme disease is the most commonly reported vector-borne illness in  
7 the United States with an estimated 300,000 Americans diagnosed each year and it  
8 is also the highest reported tick-borne disease in Wisconsin with <sup>38,394</sup>~~23,000~~ cases  
9 reported between <sup>1990</sup>~~1980~~ and <sup>2015</sup>~~2010~~; and

10       Whereas, signs and symptoms generally set in after 3–30 days and commonly  
11 include a fever, headache, fatigue, and a circular skin rash called erythema migrans  
12 (“EM”); and

13       Whereas, if left untreated, the infection may spread to other parts of the body  
14 producing symptoms that include: additional EM lesions, facial or Bell’s palsy, severe

1 headaches and neck stiffness, pain and swelling in large joints, fatigue, cognitive  
2 decline, shooting pains, and heart palpitations; and

3 Whereas, although Lyme disease is often difficult to diagnose the disease can  
4 be treated successfully with oral or injectable antibiotics if it is detected early; and

5 Whereas, the best ways to prevent Lyme disease are to avoid wooded and bushy  
6 areas with high grass, use repellants with 20 to 30 percent DEET, wear light-colored  
7 clothing to cover exposed skin, and check skin thoroughly after being in areas where  
8 ticks may be present; and

9 Whereas, according to the Centers for Disease Control and Prevention, in ~~2012~~<sup>2011</sup>  
10 nearly <sup>96</sup>~~95~~ percent of the over <sup>27,000</sup>~~30,000~~ Lyme disease cases in the United States were  
11 reported from only ~~13~~<sup>14</sup> states with over ~~1,700~~<sup>2,975</sup> of them reported from the state of  
12 Wisconsin; and

13 Whereas, it is important to provide information and raise public awareness of  
14 Lyme disease causes, effects, and treatments; and to emphasize important education  
15 and research efforts surrounding Lyme disease and other tick-borne diseases; now,  
16 therefore, be it

17 **Resolved by the senate, the assembly concurring, That** the legislature  
18 recognizes May <sup>2017</sup>~~2014~~ as Lyme Disease Awareness Month in Wisconsin and  
19 commends this observance to all residents; and, be it further

20 **Resolved, That** the legislature calls upon all residents to learn about the  
21 importance of tick avoidance and personal protection, tick detection and removal, the  
22 signs and symptoms of tick-borne illnesses, and the need for prompt diagnosis and  
23 treatment of Lyme disease.
