| a1048 | BETTER DEAL:: JOBS CREDITS: Require the company to create at least 1,000 jobs by 2018 and 3,000 in 2019. All jobs created must be eligible for credits (at the current 17%). Beginning in 2022, the percentage of the jobs tax credit would fluctuate annually based on the level of jobs created and maintained. At 13,000 or more jobs the credit would be for 17% for that year; for 12,000-12,999 it would be 16%; 11,000-11,999(15%); 10,000-10,999 (14%); 9,000+ (13%); 8,000+ (12%); 7,000+ (11%); 6,000+ (10%); 5,000+ (9%); 4,000+ (8%); 3,000+ (7%). If it drops below 3,000 during the length of the contract the company would lose certification and WEDC would be required to clawback to recover all previously paid credits for both jobs and capital. SALES TAX: If the company fails to create 13,000 jobs and maintain them through the contract beginning in 2022, the company would lose the sale tax exemption and be required to repay the state. CAPITAL CREDITS: Limit construction eligible for the credit to the initial 4 year build out phase. Extend the time for capital credits to be paid out from 7 years to the entire 15 year contract. The credit percentage is reduced from 15% to 10% of costs if the company employs fewer than 13,000 beginning in 2022. |
| AA 7  | Require, rather than authorize, WEDC to use clawbacks                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
