2017 SENATE BILL 274

May 25, 2017 - Introduced by Senators CRAIG, WIRCH, HARSDORF, NASS and OLSEN, cosponsored by Representatives JACQUE, DUCHOW, R. BROOKS, GENRICH, MURPHY, THIESFELDT and TUSLER. Referred to Committee on Insurance, Housing and Trade.

1 **AN ACT to create** 632.63 of the statutes; **relating to:** life insurance and annuity
2 benefits.

Analysis by the Legislative Reference Bureau

This bill implements the Model Unclaimed Life Insurance Benefits Act prepared by the National Conference of Insurance Legislators. Generally, the bill addresses the obligations of an insurer providing life insurance policies, annuities, or retained asset accounts with respect to identifying insureds who have died and their beneficiaries.

Under the bill, an insurer is required to compare the records of its life insurance policies, annuity contracts, or retained asset accounts with the federal Social Security Administration's Death Master File. The bill specifies the conditions under which a potential match between those records and the Death Master File occurs. The bill specifies that when a potential match occurs, the insurer must, within 90 days, complete a good faith effort, documented by the insurer, to validate the death of the insured or retained asset account holder against other available records or information. The insurer must then determine whether benefits are owed under the policy or contract and, if so, use good faith efforts to locate any beneficiaries and provide those beneficiaries claims forms and instructions for making a claim. With respect to group life insurance policies, insurers are only required to compare its records with the Death Master File if the insurer maintains certain information regarding the life insurance policy. The bill also requires insurers to implement procedures to account for discrepancies in records, such as compound last names or transposed months and dates in dates of birth. Finally, the bill prohibits an insurer

from charging a beneficiary any fees or costs associated with comparing its records or verifying a match with the Death Master File.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

1 **SECTION 1.** 632.63 of the statutes is created to read:

8 plan participants.

9 (b) “Death master file” means the federal social security administration’s death
10 master file or any other database or service that is at least as comprehensive as the

5 on at least a semi-annual basis, by using the full death master file once, and

7 potential matches of its insureds. For those potential matches identified as a result
8 of a death master file match, the insurer shall do all of the following:

9 1. Within 90 days of a death master file match:
