Description submission of base budget review reports by state agencies, the legislature, and the courts					

Assumptions Used in Arriving at Fiscal Estimate

This bill requires that every state agency, including the legislature and the courts, submit a base budget review report once every third biennium. The report must include a description of each programmatic activity of the agency and provide for each programmatic activity an accounting, by fund source, of expenditures for the prior three fiscal years and for the last two quarters of each of the prior three fiscal years. The bill provides that the reports must be included with state agency budget requests. DWD could be selected to initially submit the report in the 2019-21 biennium, the 2021-23 biennium, or the 2023-25 biennium.

Under the bill, the secretary of administration must develop categories for state agencies to use in organizing the required expenditure information for the base budget review report. The cost to produce the report will be related to how closely the categories developed by the secretary correspond to those that are presently collected and reported by the agency. Costs associated with fiscal reporting, which include but are not limited to data collection, analysis, validation, document/template development, and internal review and approval are not negligible, but cannot be quantified without knowing the parameters of the report.

Long-Range Fiscal Implications
