studying to be psychiatric mental health nurse practitioners. To receive a grant, the graduate program must commit to doing certain activities as specified in the bill.

***** ANALYSIS FROM -5014/P2 *****

This bill requires a physician, physician assistant, advanced practice nurse prescriber, podiatrist, dentist, or optometrist who is authorized to prescribe controlled substances, when renewing his or her license issued by the applicable credentialing board, to submit proof of completion of continuing education requirements promulgated by rule of the board regarding best practices in prescribing controlled substances.

products; federal waivers

Under current federal law, the federal Drug Enforcement Administration (DEA) registers health care practitioners to dispense controlled substances, and practitioners who dispense narcotic drugs to individuals for addiction treatment must additionally obtain a separate DEA registration for that purpose. However, qualifying health care practitioners may, subject to certain requirements and limitations, obtain a waiver from the requirement to obtain a separate DEA registration to dispense those drugs for addiction treatment. Health care practitioners eligible to obtain and practice under such a waiver include qualifying physicians and, until October 1, 2021, qualifying physician assistants and nurse practitioners. In order to qualify for a waiver, a nurse practitioner or physician assistant must be supervised by, or work in collaboration with, a qualifying physician, if the nurse practitioner or physician assistant is required by state law to act in collaboration with or under the supervision of a physician.

Under rules promulgated by the state Medical Examining Board, the practice of a physician assistant must be under the supervision of one or more physicians, and under rules promulgated by the state Board of Nursing, advanced practice nurse prescribers must work in a collaborative relationship with a physician.

This bill provides that, with respect to the ability of an advanced practice nurse prescriber or physician assistant to obtain and practice under a waiver, a physician who satisfies any of the criteria specified in federal law to be eligible to obtain a waiver is considered eligible to serve as a qualifying physician for purposes of the collaboration or supervision requirement under federal law, regardless of whether the physician himself or herself holds a waiver.

The bill prohibits the Department of Health Services from requiring prior authorization for or another limitation on prescribing and dispensing of buprenorphine combination products to a Medical Assistance recipient, who is not pregnant, by a health care provider who possesses a valid waiver, if the prior authorization or other limitation is not required under the federal law.

subsub substance abuse

This bill makes the following changes regarding substance abuse counseling:

counseling

1. Allows marriage and family therapists and professional counselors to represent themselves to the public as substance abuse counselors, clinical supervisors, or prevention specialists without holding a certification for that purpose granted by the Department of Safety and Professional Services.

2. Requires DSPS to grant a certification as a substance abuse counselor, clinical supervisor, or prevention specialist to an individual who holds a similar unexpired certification granted by another state that has requirements for certification that are not lower than this state's certification requirements.

3. Requires the secretary of DSPS to appoint an advisory behavioral health review committee to semiannually review the requirements for obtaining certain substance abuse counseling certifications; for obtaining credentials granted by the Marriage and Family Therapy, Professional Counseling, and Social Work Examining Board; and for obtaining other credentials related to behavioral health. Under the bill, the advisory committee is required to accept public comments related to its review and may propose changes in statutes and administrative rules to DSPS.

4. Allows a person certified as a social worker, advanced practice social worker, or independent social worker, within the scope of his or her credential, to treat substance use disorder as a specialty. In order to treat substance use disorder as a specialty, current law requires a person holding one of those certifications to satisfy additional criteria related to education and amount of supervised practice, and to complete continuing education every two years, or to obtain a substance abuse counselor, clinical supervisor, or prevention specialist certification from DSPS.

5. Specifies the contents required in an application for certification as a substance abuse counselor, clinical substance abuse counselor, intermediate or independent clinical supervisor, prevention specialist, substance abuse counselor-in-training, clinical supervisor-in-training, or prevention specialist-in-training.

6. Adds various actions to the scope of unprofessional conduct for which DSPS may discipline a substance abuse counselor or other related professional.

7. Specifies the requirements that a person with an expired substance abuse counselor or other related certification must satisfy to renew or reinstate an expired, surrendered, or revoked certification.

8. Specifies the contents required in an application to be approved by DSPS to provide education that satisfies the educational requirements for a substance abuse counselor or other related certification.

9. Specifies the continuing education requirements that a substance abuse counselor, clinical substance abuse counselor, prevention specialist, or clinical supervisor is required to satisfy in order to renew his or her certification.

*** ANALYSIS FROM -4937/P2 ***

This bill requires each school board to incorporate drug abuse awareness and prevention in its health instructional program. Current law requires school boards to provide instruction about the effects of controlled substances and alcohol on the human system, but a school board may not require a pupil to receive that instruction if the pupil's parent or guardian files a written objection. Current law also requires school boards to provide instruction to pupils on the relationship between highway safety and controlled substances and the relationship between youth suicide and controlled substances. This bill specifies that the references to controlled substances in these requirements include prescription drugs included in the Uniform Controlled Substances Act.

9 **SPS 165.01 Late renewal. (1) GENERAL.** A person with an expired credential
10 under s. 440.88, Stats., may not reapply for a credential using the initial application
11 process.

12 **(2) RENEWAL WITHIN 5 YEARS.** A person renewing a credential under s. 440.88,
13 Stats., within 5 years after its expiration shall do all of the following:

14 (a) Pay the renewal fee as determined by the department under s. 440.03 (9)
15 (a), Stats., and any applicable late renewal fee.

16 (b) Certify the completion of continuing education under ch. SPS 168 during
17 the 2-year period preceding the last renewal date.

18 **(3) RENEWAL AFTER 5 YEARS.** This subsection does not apply to a credential holder
19 who has unsatisfied disciplinary requirements. A person renewing a credential
20 under s. 440.88, Stats., after 5 years of its expiration shall do all of the following:

21 (a) Pay the renewal fee as determined by the department under s. 440.03 (9)
22 (a), Stats., and the late renewal fee.

23 (b) Provide evidence of one of the following:

24 1. Holding a substantially equivalent credential in another state.

1 3. Case management.

2 4. Patient education.

3 5. Professional responsibility.

4 6. Boundaries and ethics.

5 (c) Evidence that each instructor satisfies one of the following:

6 1. The instructor holds one of the following credentials in good standing:

7 a. Substance abuse counselor.

9 c. A credential under ch. 457, Stats.

10 2. The instructor is a physician with knowledge and experience related to
11 substance use disorder counseling.

12 3. The instructor is a psychologist with knowledge and experience related to
13 substance use disorder counseling.

14 4. The instructor is an instructor of substance use disorder related courses at
15 an accredited institution.

16 **(2)** An instructor whose credential has been limited, suspended, or revoked
17 may not instruct in an approved program while the disciplinary action is in effect.

18 **(3)** An approved program shall inform the department in advance of any major
19 change in a course or instructor qualifications.

20 **(4)** An approval of a program remains in effect for 5 years. After 5 years, the
21 program shall resubmit a new application to become an approved educational
22 program.

23 **(5)** An approved program shall provide a certificate of completion or transcript
24 to each student and shall retain student records for at least 7 years after a student
25 has completed the program.

1 (2) A minimum of 4 continuing education credit hours of the required 30 credit
2 hours shall be in the area of professional ethics and boundaries.

3 (3) A credential holder who also holds an active credential granted under ch.
4 457, Stats., may satisfy the continuing education requirements by meeting the
5 continuing education requirements under s. 457.22, Stats.

6 (4) A clinical supervisor shall complete 4 hours of continuing education each
7 2-year credential period related to the supervision of substance abuse counselors.
8 The 4 hours completed under this subsection may count toward the continuing
9 education required for renewal of a clinical substance abuse counselor certification.

10 (5) A new credential holder is not required to satisfy continuing education
11 requirements during the time between initial credentialing and commencement of
12 a full 2-year credential period.

13 (6) Continuing education credit hours shall apply only to the 2-year credential
14 period during which the credit hours are completed. If a credential holder fails to
15 satisfy the continuing education requirements during a 2-year credential period,
16 any additional continuing education credit hours completed on or after the renewal
17 date to satisfy the requirement of the preceding period will not apply to the period
18 during which they are earned.

5 counseling:

6 1. Presenting professional material. One continuing education credit hour is
7 earned under this subdivision for each hour of a continuing education presentation,
8 except that 15 credit hours are earned for presenting a semester-long educational
9 course. No continuing education credit hours are earned by a person for repeating
10 a presentation for which the person has previously earned continuing education. A
11 person who presents for any of the following may earn continuing education credit
12 hours under this subdivision:

13 a. A seminar, workshop, program, or institution that is approved under sub. (1).
14 b. A university, college, or vocational technical adult education course.

15 2. Developing professional material. One continuing education credit hour is
16 earned under this subdivision for each hour spent developing continuing education
17 professional material.

18 3. Authoring a published textbook or professional resource book. Fifteen
19 continuing education credit hours are earned for authoring a book under this
20 subdivision.

21 4. Authoring a professional journal article or a chapter published in a textbook
22 or professional resource book. Eight continuing education credit hours are earned
23 for authoring an article or chapter under this subdivision.

1 (b) A person may earn up to 15 continuing education credit hours that count
2 toward satisfying continuing education requirements by completing continuing
3 education that is approved under par. (a).

Yeah if we can draft it to just go to UW for the purposes laid out in the original draft that would be great.

Do you want to leave DHS out of it completely then?

Could we change it to just go directly to the UW for these grants?

Chris,

I drafted this portion of the bill. I drafted this grant program based on other grant programs in the statutes when the money came from DHS. The instructions stated that the money was to come from DHS, which is why it ended up to be a grant program. Otherwise, the funding could have gone directly to UW.

I will send this on to the appropriate drafter to have the money come from HEAB instead. That drafter may be contacting you.

Hi Elizabeth,

DHS has concerns with administering the psychiatric nurse's bill. I was wondering if we could make a few changes:

I am not inclined to include online students – we really want this to help in-state students who are doing fellowships in-state.

Could we have the proposed grant program be assigned to HEAB?

Is there a drafting reason we made it a competitive grant that schools must apply for rather than just designating dollars for UW's School of Nursing?

For some background here is context from DHS:

Andy and I appreciate the confidence that Rep. Nygren and his colleagues have in DHS to effectively develop and manage grant programs. We also recognize that the need for mental health specialists is great.

We are not certain, however, that this proposal, as currently structured, would be a good fit with our other health care workforce efforts at this time. This conclusion is based on the following information.

- To the best of our knowledge, there are only two graduate nursing programs in WI which offer a certified course for psychiatric mental health nurse practitioners. One is at the UW School of Nursing-Madison and the second is at Alverno College.
- There are a number of certified on-line programs. It appears that the majority require students to arrange their own clinical training in their community thus decreasing the likelihood that training would be done in rural areas.
- A decision would need to be made regarding whether on-line programs would be eligible to apply.
- Rather than a new stand-alone grant program, consideration could be given to adding the psychiatric mental health nurse practitioner to the new Advanced Practice Clinician Training Grant that was included in the 2017-2019 biennial budget. This may require revisions and/or additions to the existing stat language (attached).
- Alternatively, the proposed grant program could be assigned to HEAB providing a more direct link to the actual programs.
- As currently drafted, the appropriation for the psychiatric mental health NP would be in DCTS. The 2017-2019 appropriation for advanced practice grants is in DPH, s. 20.435 (1) (fk).

Please let me know if you need additional information or have any questions.

Linda

Thanks so much!
