Hi Elizabeth,

Was wondering if we could make a few changes to this draft:

Can we strike "department of children and families internet site" and replace with "internet-accessible" because it may be hosted on the Counties Association website? Can we broader "social services workers" to "social services or veteran service workers"? And then strike "opioid-related cases" and replace with "cases involving substance abuse" to include meth and the like?

Let me know if I can help in any way!

Thanks,

Chris
