Assumptions Used in Arriving at Fiscal Estimate

Assembly Bill 829 would require the department to promulgate rules to establish a process by which an individual may apply for a binding determination of whether he or she would be disqualified from obtaining the license based on his or her conviction record.

The bill also narrows the reasons for the denial of a license based on the applicant's conviction record. The department would have to modify existing administrative code to conform with these new requirements.

The department estimates that it would take policy development staff approximately 350 hours to complete the rule making process.

The department estimates that the requirement to conduct binding determinations would have a minimal impact on credential processing staff.
