## Fiscal Estimate Narratives

CTS 8/23/2017

LRB Number	17-1302/1	Introduction Number	SB-280	Estimate Type	Original
<b>Description</b> neglect of a child and providing criminal penalties					

### Assumptions Used in Arriving at Fiscal Estimate

This bill expands the definition of and changes the criminal penalty structure for neglect of a child, with penalties ranging from a Class A misdemeanor to a Class D felony, depending on the type and severity of the injury to the child. The bill also creates a new crime of repeated acts of neglect of the same child, with penalties ranging from a Class H to Class B felony. The range of the new crime also varies depending on the type and severity of the injury to the child.

To determine the impact of this bill on required judicial resources, we have relied on the Wisconsin Judicial Workload Assessment 2016, submitted to the Director of State Courts by the National Center for State Courts. For this study, all Wisconsin judges and court commissioners participated in a time study designed to measure the time currently spent processing different types of cases from initial filing to final resolution. According to the study, felony cases took 197 minutes of judicial time. For purposes of comparison, the same study found misdemeanor cases took 39 minutes of judicial time.

It is impossible to predict how many such crimes will be filed in the circuit courts. Additional proceedings require additional judge, court reporter, court staff and juror time. These costs are borne by both the state and the county. An accurate estimate of the additional costs of this proposal, and how those costs will be divided between the state and the counties, is impossible with the data available.

This bill may result in greater usage of county jails, if more persons are prosecuted and are sentenced to time in the county jail rather than state prison. These costs are borne by the counties. An accurate estimate of the change in costs is impossible with the data available.

### Long-Range Fiscal Implications
