LRB Number	17-5156/2	Introduction Number	SB-777	Estimate Type	Original
Description					

increasing the authority of a county executive from a populous county and other counties and reducing the authority of a county board, budgeting procedures for populous counties, certain other counties, and cities, villages, and towns, and the method for establishing the compensation of county supervisors and county elective officers

Assumptions Used in Arriving at Fiscal Estimate

The Department of Revenue (DOR) fiscal note will address the alternative budget procedures for counties and municipalities (defined as city, village, or town).

Under current law, counties and municipalities prepare annual budgets. The bill creates an alternative budget process for any county or municipality. A county or municipality could adopt a biennial budget in every odd-numbered year for fiscal years that begin after December 31, 2017.

There is no local fiscal effect. Annually, the DOR distributes aid payments and provides local levy limit amounts used by counties and municipalities when preparing their budgets. Counties and municipalities adopting the alternative budget would have to adjust biennial budgets in the second year to account for payment and levy limit changes.

Long-Range Fiscal Implications
