Description actions against certain third parties by injured employees under the worker's compensation law					

Assumptions Used in Arriving at Fiscal Estimate

This bill eliminates the right of action in tort by an injured employee against certain third parties by reason of the injury if the injured employee has the right to make a claim for compensation against his or her employer under the worker's compensation law.

The Department of Workforce Development Worker's Compensation Division estimates no state fiscal effect from this proposed bill. Fiscal effects on local governments are indeterminate.

Long-Range Fiscal Implications
