AN ACT to amend 30.27 (3); and to create 30.27 (2) (d) of the statutes; relating to zoning ordinances in the Lower St. Croix riverway.

Analysis by the Legislative Reference Bureau

This bill provides that neither the Department of Natural Resources nor a county may enforce a guideline or standard for local zoning ordinances applicable to the Lower St. Croix riverway, a general zoning standard, or a stipulation made between a county and a property owner to prohibit the operation of an event facility and lodging establishment in existing buildings on a property located in the riverway that was historically used as a recreational campground.

Under current law, DNR is required to promulgate rules establishing guidelines and standards for local zoning ordinances that apply to the banks, bluffs, and bluff tops of the Lower St. Croix River, and counties and municipalities located in the riverway are required to adopt zoning ordinances complying with the guidelines and standards. Current law also prohibits a county or municipality from modifying or providing a variance from the ordinances without DNR consent. The bill eliminates this prohibition.
