Authority, health benefit exchange operation, granting rule-making authority,

Analysis by the Legislative Reference Bureau

This bill requires the establishment and operation of a Wisconsin Health Benefit Exchange, which is administered by the Badger Health Benefit Authority that is also created in the bill.
This bill creates the Badger Health Benefit Authority (authority) that is a public body corporate and politic that is created by state law but that is not a state agency. The authority is governed by a board of directors consisting of the commissioner of insurance, the secretary of employee trust funds, the director of the state Medical Assistance program, the executive directors of the Wisconsin Collaborative for Healthcare Quality and the Wisconsin Health Information Organization, and the following members who are nominated by the governor and, with the advice and consent of the senate, appointed for three-year terms: a member in good-standing of the American Academy of Actuaries, a health economist, an employee benefits specialist, a representative of small employers, a representative of an organization that represents consumer interests, a representative of organized labor, and an individual with experience in health care administration. The chairperson of the board is the commissioner. The board must appoint an executive director of the authority. The executive director must, among other duties, supervise the administrative affairs and general management and operation of the authority, employ professional and clerical staff, as necessary, and prepare the authority’s annual budget.

The authority is not a state agency, so numerous laws that apply to state agencies do not apply to the authority. However, the authority is treated like a state agency in the following ways, among others: it is subject to auditing by the Legislative Audit Bureau; it is subject to open meeting and open records laws; and it is exempt from property tax, income tax, and sales and uses taxes. The authority has powers, including adopting bylaws and policies and procedures for the regulation of its affairs and conduct of its business; hiring employees; incurring debt; suing and being sued in its own name; and executing contracts. The bill establishes a process that the authority must use when it contracts for professional services. Under the bill, the authority is subject to civil liability for its acts or omissions except that the maximum amount recoverable in a civil action against the authority is $100,000. However, a member of the authority’s board of directors, the authority’s executive director, or an authority employee is exempt from civil liability unless the member, director, or employee acted with willful misconduct or in intentional violation of the law. The bill also imposes restrictions on board members and the authority’s executive director pertaining to conflicts of interest and requires board members and the executive director to file financial disclosures.

Health benefit exchange

Under the bill, the authority must establish and operate a Wisconsin Health Benefit Exchange in this state, must make qualified health plans, with effective dates on or before January 1, 2018, available to qualified individuals and qualified employers, and must seek federal grants and other funding for the purpose of the exchange. A qualified health plan is defined in the bill, generally, as a health benefit plan that covers the costs of health care services and that meets the certification criteria described in the federal Patient Protection and Affordable Care Act (PPACA). A qualified individual is defined in the bill, generally, as a citizen or national of the United States, or an alien lawfully present in the United States, who
is not imprisoned in a correctional facility and who resides in this state. A qualified employer is defined in the bill, generally, as a small employer with not more than 100 employees that either (1) has its principal place of business in this state and elects to provide coverage to all of its eligible employees, wherever employed, through the small business health options program component of the exchange (SHOP Exchange) established by the authority; or (2) elects to provide coverage through the SHOP Exchange to all of its eligible employees who are principally employed in this state.

Only health benefit plans that are certified by the authority as qualified health plans may be offered through the exchange. To be certified as a qualified health plan, a health benefit plan must provide the essential health benefits package described in PPACA, its premium rates and contract language must have been filed with and not disapproved by the commissioner, it must provide at least a bronze level of coverage, as determined by the authority in accordance with criteria developed by the secretary of the federal Department of Health and Human Services, its cost sharing must not exceed limits established in PPACA, the insurer offering it must meet specified criteria, and the authority must determine that making the plan available through the exchange is in the interest of qualified individuals and qualified employers in this state.

The authority must assign a rating to, and determine the level of coverage of, each qualified health plan offered through the exchange. The levels of coverage under PPACA are bronze, silver, gold, and platinum, and are based on what percentage of the full actuarial value of the benefits provided under the plan the benefits under the plan provides. An eligible employee of a qualified employer that provides coverage through the SHOP Exchange may enroll in any qualified health plan offered through the SHOP Exchange at the level of coverage specified by his or her employer.

After the exchange begins operating, no insurer may offer or issue health benefit plan coverage in this state to an individual or a small employer except through the exchange. Although any insurer that is authorized to do business in this state in one or more lines of insurance that includes health insurance may offer qualified health plans through the exchange, a health benefit plan may not be certified as a qualified health plan unless the insurer that offers it, among other things, is in good standing, charges the same premium for the plan regardless of whether it is offered directly by the insurer or through an insurance intermediary, offers through the exchange at least one qualified health plan in each of the silver and gold levels of coverage, and complies with regulations of the federal DHHS and any other requirements established by the authority. In addition, any insurer that seeks certification of a health benefit plan as a qualified health plan must provide a justification for any premium increase; must make specified information available to the public, such as data on enrollment and on the number of claims denied, claims payment policies and practices, and financial disclosures; and must permit individuals enrolled in the plan to learn the amount that an individual would be responsible for paying toward the cost of a specific item or service.
An insurer that offers coverage through the exchange must establish a toll-free hotline for providing information to enrollees and must pay a commission, determined by the authority, to an insurance intermediary who enrolls a qualified individual or employees of a qualified employer in a qualified health plan offered by the insurer through the exchange. For determining premiums, an insurer that offers coverage through the exchange may pool together all individuals and employees with coverage under all of the plans issued by the insurer through the exchange. To pay administrative expenses of the exchange, the authority may impose on each insurer offering plans through the exchange a surcharge that is based on the insurer’s total premium or flat dollar amount per enrollee collected through the exchange.

The bill sets out numerous responsibilities for the authority with respect to the exchange. In addition to the administrative duties related to certifying and rating health benefit plans and enrolling qualified individuals and qualified employers, the authority must provide for the operation of a toll-free telephone hotline to respond to requests for assistance; establish an appeals process; establish and operate a service center to provide information; publicize the exchange; maintain an Internet site with comparative information about qualified health plans; screen applicants for eligibility for Medical Assistance and, if eligible, assist them to enroll in Medical Assistance; select, and award grants to, entities to serve as navigators for conducting public education activities and distributing information about, and facilitating enrollment in, qualified health plans; review the rate of premium growth within the exchange and outside of the exchange; and develop recommendations on whether qualified employers should be limited to small employers. The authority may establish risk adjustment mechanisms for the exchange, contract with a third-party administrator for services on behalf of the exchange, and establish sub-exchanges or other exchanges provided for under federal law. The authority must keep an accounting of all exchange-related activities and receipts and expenditures and annually submit a report of the accounting to the federal DHHS, the governor, the commissioner, and the legislature.

This proposal may contain a health insurance mandate requiring a social and financial impact report under s. 601.423, stats.

For further information see the state fiscal estimate, which will be printed as an appendix to this bill.

(8) Procure liability insurance.

(10) Execute contracts and other instruments, including contracts for professional or technical services required for the authority or the operation of an exchange under subch. II.

636.76 **Contracting for professional services.** (1) Whenever contracting for professional services, the authority shall solicit competitive sealed bids or competitive sealed proposals, whichever is appropriate. Each request for competitive sealed proposals shall state the relative importance of price and other evaluation factors.

(2) (a) When the estimated cost exceeds $25,000, the authority may invite competitive sealed bids or proposals by publishing a class 2 notice under ch. 985 or by posting notice on the Internet at a site determined or approved by the authority.
The notice shall describe the contractual services to be purchased, the intent to make
the procurement by solicitation of bids or proposals, any requirement for surety, and
the date the bids or proposals will be opened, which shall be at least 7 days after the
date of the last insertion of the notice or at least 7 days after the date of posting on
the Internet.

(b) When the estimated cost is $25,000 or less, the authority may award the
contract in accordance with simplified procedures established by the authority for
such transactions.

(c) For purposes of clarification, the authority may discuss the requirements
of the proposed contract with any person who submits a bid or proposal and shall
permit any offerer to revise his or her bid or proposal to ensure its responsiveness to
those requirements.

(3) (a) The authority shall determine which bids or proposals are reasonably
likely to be awarded the contract and shall provide each offerer of such a bid or
proposal a fair and equal opportunity to discuss the bid or proposal. The authority
may negotiate with each offerer in order to obtain terms that are advantageous to
the authority. Prior to the award of the contract, any offerer may revise his or her
bid or proposal. The authority shall keep a written record of all meetings,
conferences, oral presentations, discussions, negotiations, and evaluations of bids or
proposals under this section.

(b) In opening, discussing, and negotiating bids or proposals, the authority may
not disclose any information that would reveal the terms of a competing bid or
proposal.

(4) (a) After receiving each offerer’s best and final offer, the authority shall
determine which proposal is most advantageous and shall award the contract to the
person who offered it. The authority’s determination shall be based only on price and
the other evaluation factors specified in the request for bids or proposals. The
authority shall state in writing the reason for the award and shall place the
statement in the contract file.

(b) Following the award of the contract, the authority shall prepare a register
of all bids or proposals.

636.78 Political activities. (1) No employee of the authority may directly
or indirectly solicit or receive subscriptions or contributions for any partisan political
party or any political purpose while engaged in his or her official duties as an
employee. No employee of the authority may engage in any form of political activity
calculated to favor or improve the chances of any political party or any person seeking
or attempting to hold partisan political office while engaged in his or her official
duties as an employee or engage in any political activity while not engaged in his or
her official duties as an employee to such an extent that the person’s efficiency during
working hours will be impaired or that he or she will be tardy or absent from work.
Any violation of this section is adequate grounds for dismissal.

(2) If an employee of the authority declares an intention to run for partisan
political office, the employee shall be placed on a leave of absence for the duration
of the election campaign and if elected shall no longer be employed by the authority
on assuming the duties and responsibilities of such office.

(3) An employee of the authority may be granted, by the executive director, a
leave of absence to participate in partisan political campaigning.

(2) Each individual who in January of any year is an individual required to file shall file with the ethics commission no later than April 30 of that year a statement of economic interests meeting each of the requirements of s. 19.44 (1). The information contained on the statement shall be current as of December 31 of the preceding year.

(3) An individual required to file shall file with the ethics commission a statement of economic interests meeting each of the requirements of s. 19.44 (1) no later than 21 days following the date he or she assumes a position on the board or the position of executive director if the individual required to file has not previously filed a statement of economic interests with the ethics commission during that year. The information on the statement shall be current as per the date he or she assumes the position.

(4) If an individual required to file fails to make a timely filing, the ethics commission shall promptly provide notice of the delinquency to the secretary of administration, and to the executive director of the authority, or the chairperson of the board if the executive director’s filing is untimely. Upon such notification, both the secretary of administration and the executive director, or chairperson, shall withhold all payments for compensation, reimbursement of expenses, and other obligations to the individual until the ethics commission notifies those to whom notice of the delinquency was provided that the individual has complied with this section.
(5) On its own motion or at the request of any individual required to file a statement of economic interests, the ethics commission may extend the time for filing or waive any filing requirement if the ethics commission determines that the literal application of the filing requirements of this subchapter would work an unreasonable hardship on that individual or that the extension of the time for filing or waiver is in the public interest. The ethics commission shall set forth in writing as a matter of public record its reason for the extension or waiver.

(6) (a) Any person who violates this section may be required to forfeit not more than $500 for each violation. If the court determines that the accused has realized economic gain as a result of the violation, the court may, in addition, order the accused to forfeit the amount gained as a result of the violation. The attorney general, when so requested by the ethics commission, shall institute proceedings to recover any forfeiture incurred under this subsection that is not paid by the person against whom it is assessed.

(b) Any person who intentionally violates this section shall be fined not less than $100 nor more than $5,000 or imprisoned not more than one year in the county jail or both.

636.82 Conflict of interest prohibited; exception. (1) Except in accordance with the ethics commission's advice under s. 19.46 (2) and except as otherwise provided in sub. (2), a member of the board under s. 636.70 (1) and the executive director of the authority may not do any of the following:

(a) Take any official action substantially affecting a matter in which the board member or executive director, a member of his or her immediate family, or an organization with which the board member or director is associated has a substantial financial interest.
(b) Use his or her office or position in a way that produces or assists in the production of a substantial benefit, direct or indirect, for the board member or executive director, one or more members of his or her immediate family either separately or together, or an organization with which the board member or executive director is associated.

(2) This section does not prohibit a board member under s. 636.70 (1) or the executive director of the authority from taking any action concerning the lawful payment of salaries or employee benefits or reimbursement of actual and necessary expenses.

(3) (a) Any person who violates this section may be required to forfeit not more than $5,000 for each violation. If the court determines that the accused has realized economic gain as a result of the violation, the court may, in addition, order the accused to forfeit the amount gained as a result of the violation. The attorney general, when so requested by the ethics commission, shall institute proceedings to recover any forfeiture incurred under this subsection that is not paid by the person against whom it is assessed.

(b) Any person who intentionally violates this section shall be fined not less than $100 nor more than $5,000 or imprisoned not more than one year in the county jail or both.

636.84 Liability; expenses; limitations. (1) Neither the state, nor any political subdivision of the state, nor any officer, employee, or agent of the state or a political subdivision who is acting within the scope of employment or agency is liable for any debt, obligation, act, or omission of the authority.

(2) All of the expenses incurred by the authority in exercising its duties and powers under this chapter shall be payable only from funds of the authority.
(3) A cause of action may arise against and civil liability may be imposed on
the authority for its acts or omissions or for any act or omission of a member of the
board, the executive director, or an employee of the authority in the performance of
his or her powers and duties under this chapter.

(4) A cause of action may not arise against and civil liability may not be imposed
on a member of the board under s. 636.70 (1), the executive director of the authority,
or an employee of the authority for any act or omission in the performance of his or
her powers and duties under this chapter, unless the person asserting liability proves
that the act or omission constitutes willful misconduct or intentional violation of the
law. The member of the board, executive director, or employee who performed the
act or omission that formed the basis of liability shall be jointly liable with the
authority if that board member, executive director, or employee fails to cooperate
with the authority in defense of the claim and if the failure to cooperate affects the
defense of the action.

(5) The amount recoverable by any person for any damages, injuries, or death
in any civil action or civil proceeding against the authority, including any such action
or proceeding based on contribution or indemnification, shall not exceed $100,000.
