villages, and towns, and the method for establishing the compensation of
county supervisors and county elective officers.

Analysis by the Legislative Reference Bureau

Powers and duties of a county executive

This bill, generally, expands some of the powers that may be exercised by the county executive of any county with a population of 750,000 or more (populous county) and makes other changes that apply to all counties. Generally, the bill provides that any power conferred to a county executive or county administrator must be broadly and liberally construed and limited only by express language. To the extent that a conflict exists between county board action and county executive or county administrator action, the bill provides that the action of the executive or administrator shall prevail, to the extent of the conflict. The bill also allows a county executive of a populous county to exercise some of the authority that would otherwise be exercised by the county board for matters regarding property. Such authority includes providing public liability and property damage insurance, providing fire and casualty insurance for county property, examining and settling all accounts of the county and all claims, and purchasing publications. In addition, the bill gives the county executive sole authority to exercise the powers granted to the county board with regard to establishing parking areas (populous counties only), acceptance of donations, gifts, and grants, and transportation leases.

Current law allows a county executive of a populous county to hire and supervise the number of employees that the county executive reasonably believes are necessary for him or her to carry out the duties of the county executive’s office. The bill provides that the county board of a populous county may neither reduce nor eliminate the staff authorized by the county executive for operating the office of the county executive, nor reduce or eliminate the appropriations for the staff and operations of the office. The bill also gives the county executive of a populous county sole authority to determine the compensation, fringe benefits, human resources, hiring, creation and elimination of positions, pay ranges, expense reimbursements, and classifications for county employees.

Under current law, the county executive of any county has the authority to coordinate and direct all administrative and management functions of the county that are not vested in other elected officers. This bill specifies that, with regard to a county executive of a populous county, the executive has sole authority over
administrative actions with regard to procurement, including an appeals process, contracting, administrative review of appeals regarding the denial of certain applications, and the actions taken under the administrative manual of operating procedures related to the authority and powers of a county executive. Under the bill, any such action taken by a county executive of a populous county is not subject to submission to or approval by the county board.

**Corporation counsel, appointees**

Current law requires the creation of the office of corporation counsel for any county with a population of 500,000 or more. Under current law, a corporation counsel is appointed by the county executive with the concurrence of a majority of the county board. A counsel may be dismissed at any time by the county executive with the concurrence of the board or may be dismissed at any time by a majority vote of the board. The bill requires the creation of the office of corporation counsel for any county with a county executive or county administrator. Under the bill, a corporation counsel is appointed by the executive or administrator with the concurrence of a majority of the county board, unless the board enacts an ordinance that waives the board’s confirmation. The bill provides that the corporation counsel is under the supervision of the county executive or county administrator and may be dismissed by the executive or administrator with the board’s concurrence.

Generally, the bill changes the method of board confirmation of county executive appointees in a populous county. Under the bill, an appointee confirmed by the board for a particular position does not need to be reconfirmed to continue in that position, and interim appointees do not require board confirmation. The bill also changes the current law provision requiring the comptroller to countersign all county contracts. Under the bill, the requirement applies only to contracts valued at more than $250,000.

**Public contracts, bonding**

Generally under current law, subject to various bidding requirements, public contracts are let by the board. Also under current law, the board is authorized to enter into leases related to items including industrial development projects, solid waste management, land clearing and weed control, public transit, and leases for airport property. Generally under the bill, the authority to enter into public contracts and leases is transferred to the county executive, if the county has that office.

Generally under current law, a county must let a public contract having an estimated cost of more than $25,000 to the lowest responsible bidder. Under this bill, the amount above which a populous county must let a contract to the lowest responsible bidder is raised to $50,000.

The bill creates a requirement that any county with an elective comptroller must create an Internet site, which may be part of the county’s website, on which it posts a list of certain contracts to which the county is a party if the contract relates to the purchase of goods or services, or the lease, sale, or purchase of real property. This provision first applies approximately six months after the bill takes effect.

Under current law, if the payment of obligations is provided by revenue bonds, the governing body of a city, village, town, or county must, by ordinance or resolution,
order the issuance and sale of bonds. The bill allows the county executive to order the issuance and sale of bonds in the case of county obligations.

**Biennial budget procedures**

This bill also authorizes counties with a population of 750,000 or more (populous counties), currently only Milwaukee County, as well as any other county, and any city, village, or town (municipalities) to adopt and use a biennial budgetary procedure.

Current law specifies an annual budgetary procedure applicable to counties with a population of 500,000 or more and certain counties that elect to follow the procedure. No later than July 15, each department of the county submits to the director of the county department of administration the respective department's estimated revenues and expenditures for the coming fiscal year, the estimated cost of any capital improvements pending or proposed for the coming fiscal year and for the next four fiscal years, and any other information that the director requests. No later than August 15, the director submits to the county executive or county administrator and to the county board all of the following: 1) the annual budget estimates of each department; 2) a statement of principal and interest becoming due on outstanding bonds and on other financial obligations; 3) an estimate of all other expenditures; 4) an estimate of anticipated issues of new bond obligations; 5) an estimate of funds required for contingencies; 6) an estimate of revenue from all other sources; and 7) a complete summary of all the budget estimates and a statement of the property tax levy required if funds were appropriated on the basis of these estimates.

After receiving the estimates, the county executive or county administrator reviews the estimates and holds public hearings. The county executive or county administrator then makes changes in the proposed budget and, no later than October 1, submits the amended proposed budget to the county board. The amended proposed budget of the county executive or administrator must include all of the following: 1) a simple, clear, general summary of the detailed contents of the budget; 2) a comparative statement by organization unit and principal object of expenditure showing the actual expenditures of the preceding fiscal year, the appropriations and estimated expenditures for the fiscal year currently ending, and the recommended appropriations for the fiscal year next succeeding; and 3) a comparative statement of the actual revenues from all sources, including property taxes, during the preceding fiscal year; the anticipated revenues and the estimated revenues for the fiscal year currently ending; and the anticipated revenues for the next succeeding fiscal year.

After receiving the amended proposed budget, the county board refers the budget to the finance committee and the finance committee holds a public hearing on the budget. After the public hearing, the finance committee submits to the county board its recommendations for amendments to the proposed amended budget. Finally, the county board adopts the budget with any changes it considers proper and advisable.

Similarly, current law specifies certain annual budgetary procedures for first class cities (presently only Milwaukee) and other cities that choose to follow these
ASSEMBLY BILL 923

procedures. The procedures include the following requirements: 1) production of a
general summary; 2) detailed estimates of all anticipated revenues applicable to
proposed expenditures; 3) all proposed expenditures; 4) a compensation schedule; 5)
the total amount of proposed expenditures for the current year, the proposed amount
for the next year, and the percentage change between the two years; and 6) the
current year and next year’s proposed property tax levy, along with the percentage
change.

Current law for cities also includes responsibilities for the board of estimates
and detailed requirements for budget review and adoption procedures, public
meetings, mayoral vetoes, and common council procedures to override such
disapproval.

Generally under this bill, for fiscal years that begin after December 31, 2017,
any county or municipality (political subdivision) may adopt a biennial budget using
the following timeline:

1. All departments submit their budget requests to the director or municipal
budget director.

2. No later than October 1 of an odd-numbered year, the chief executive of a
municipality, the county executive, county administrator, or, in counties without an
executive or administrator, the county’s finance committee submits his or her or its
proposed budget to the county board or municipality’s governing body.

3. No later than November 1 of an odd-numbered year, the county board of a
county with a county executive or a municipality’s governing body approves the
budget, engrossed with any amendments, and returns it to the county or chief
executive. In any county or municipality, any amendment to the budget must be
submitted to the comptroller or budget director at least seven business days before
it may be considered by a political subdivision’s governing body or by a committee of
the governing body and must include an estimate, prepared by the comptroller, of the
costs that will be incurred, and the staffing changes that will be required, to
implement the amendment during the next five fiscal years. If the county or
municipality does not have a comptroller, the estimate must be prepared by the
county or municipal budget director.

4. No later than November 15 of an odd-numbered year, the county executive
or the mayor may submit vetoes or changes to the county board or common council.
The county board or common council may act on the vetoes or changes no earlier than
upon receiving them or November 16, whichever occurs first, although the county
board or common council must act on the changes or vetoes no later than November
19 of an odd-numbered year or the vetoes or changes are considered to be approved
by the governing body.

5. After a biennial budget takes effect, if revenues received or expenses
incurred by the political subdivision are different from the amounts anticipated, the
county executive or municipality’s chief executive may increase or decrease
appropriation amounts as he or she determines is appropriate to account for the
changed revenue or expense amounts that affect the political subdivision.

6. Outside of the budget process, a political subdivision’s chief executive, a
county administrator, or, in a county without a county executive or administrator, the
finance committee may propose to the political subdivision’s governing body an increase or decrease in any appropriation or revenue amount subject to the same budget amendment procedures described in item #3., above. A two-thirds majority vote of the governing body is required to approve such a proposal, which may not be amended, except that if such a proposal is made and voted on between October 1 and November 15 of an even-numbered year, it may be approved by a simple majority and may be amended on a limited basis.

This bill also provides certain restrictions on the county board’s and municipality’s governing body’s actions related to the budget, including the following:

1. The budget must include all of the following items, and may include no others: a) the county or municipal tax levy; b) anticipated revenue amounts from all sources; and c) appropriations for all departments, and for any other obligations of the county or municipality.

2. The county board of a county with a county executive and a municipality’s governing body may not issue municipal obligations in an amount that is higher than the amount initially proposed by the county or chief executive in his or her proposed budget for that biennium. During a biennium, however, a county executive or municipal chief executive may propose, outside of the budget process, the issuance of additional county or municipal obligations. The county board or municipal governing body may approve such a proposal, but may not increase the amount proposed.

3. A political subdivision’s authority to transfer unencumbered appropriation balances is subject to certain limitations.

4. With regard to a populous county, and subject to some exceptions, the county board may not adopt a budget in which the total amount of budgeted expenditures related to the compensation of county board members, and to any other costs that are directly related to the operation and functioning of the county board or committees, including staff, is greater than 0.4 percent of the county portion of the tax levy for that year to which the budget applies. Some of the exceptions to this 0.4 percent cap include health care and pension benefits for retired county employees and officers, and salaries and benefits for any board member whose term begins before April 2018.

Accounting procedures

This bill also requires populous counties to utilize fund accounting and authorizes any county to create proprietary funds, fiduciary funds, and other appropriate funds allowed by government accounting practice, provided that the county describes the sources of revenues that may be deposited into each fund and the types of expenditures that may be made from each fund. In counties without a county executive, such funds may be created by the county board. In counties with a county executive, such funds may be created only by executive order of the county executive. Counties that create proprietary, fiduciary, or other funds must develop policies and procedures that apply to each such fund, including setting a working cash flow target for each fund, publishing annual estimates of working cash flow balances, and descriptions of possible uses of balances in a fund that accumulate above the cash flow target.
Compensation, certain elective officials

This bill also makes the following changes to the method for establishing the compensation of county supervisors and county elective officers other than circuit judges:

1. Requires that a county board of supervisors may change the compensation of county supervisors only by enacting an ordinance for that purpose at least three months before, but not more than six months before, the next due date for filing nomination papers for the office of supervisor.

2. Provides that the county executive, county administrator, or administrative coordinator of each county may elect to appoint a commission, composed of five people who are not holding a federal, state, or local elective office, that must make recommendations to the county board concerning the compensation for each county elective officer other than supervisor and circuit judge. The bill requires the county board to enact an ordinance establishing that the compensation for county elective officers other than circuit judges and supervisors is identical to the compensation commission's recommendations.

For further information see the local fiscal estimate, which will be printed as an appendix to this bill.

59.17 (2) (b) 6. protest of a solicitation or award of a contract, the denial in whole or in part of a
contract award, any appeal by an aggrieved party from an administrative
determination by any county official regarding an initial permit, license, right,
privilege, or authority, except an alcohol beverage license, for which a person applies
through the county.

4.  Creation of an administrative manual of operating procedures and taking
actions under such a manual related to the authority and powers granted to a county
executive under the statutes. If an action taken by the county board conflicts with
an action taken by a county executive under this subdivision, the county executive's
action shall prevail over the county board’s action to the extent that the county
executive’s action and the county board’s action conflict.

1. If the county has a county executive or administrator, the county executive or administrator must issue a written proclamation stating that the county will use the provisions of this section. Once the proclamation is issued, it takes effect. No action by the county board is needed for the proclamation to take effect, and no county board action may stop or repeal the proclamation.

2. In any other county, the board must adopt a resolution proclaiming that the county will use the provisions of this section.

(2) **DEFINITIONS.** In this section:

(a) “Budget director” means the officer or employee of a county, other than the county executive, county administrator, or county administrative coordinator, who is principally responsible for developing and coordinating a county’s budget, except that if the county’s executive, administrator, or administrative coordinator is
principally responsible for developing and coordinating a county’s budget, that
individual is the budget director.

(b) “Department” includes all county departments, boards, commissions,
institutions, offices, and other agencies of the county government for which funds
may be legally appropriated.

(c) “Director” means the director of the county department of administration.

(3) Fiscal Year. The fiscal year in every county is the calendar year.

(4) Accounting and Budgeting Procedure. Every accounting and budgeting
procedure that is applied under this section shall comply with generally accepted
accounting principles for government as promulgated by the governmental
accounting standards board or its successor bodies or other authoritative sources.

(5) Publication of Budget and Public Hearing. The board shall refer the
executive’s or administrator’s budget to the finance committee and such committee
shall publish as a class 1 notice, under ch. 985, a summary of the executive’s or
administrator’s budget and comparative figures together with a statement of the
county’s bonded indebtedness, and shall make available to the general public
reprinted copies of the summary as published. The publication shall also state the
date, hour, and place of the public hearing to be held by the board on such executive’s
or administrator’s budget. The board shall, not less than 14 days after publication
of the summary of the executive’s or administrator’s budget, and prior to the adoption
of the property tax levy, hold a public hearing on such executive’s or administrator’s
budget, at which time county residents may appear and express their opinions. After
such public hearing, and on or before the annual meeting, the finance committee
shall submit to the board its recommendations for amendments to the executive’s or
administrator’s budget, if any, and the board shall adopt the budget with such
changes as it considers proper and advisable. A request for an amendment to the
budget must be submitted to the comptroller or budget director at least 7 business
days before the amendment may be considered by the board or by a committee of the
board, and the board or committee may not consider any amendment which is not
submitted in conformity with this time frame. Any amendment to the budget shall
include an estimate, prepared by the comptroller, of the costs that will be incurred,
and the staffing changes that will be required, to implement the amendment during
the next 5 fiscal years. If a county does not have a comptroller, the estimate shall be
prepared by the county’s budget director. The board shall make the amendment and
the estimate available to the public, in an electronic format, at least 24 hours before
the amendment may be considered by the board or by a committee of the board. The
board shall have the budget resolution prepared as it was adopted by the board,
incorporating any adopted amendments, before presenting the resolution to the
executive. Subject to sub. (6), the board of a county with a population of at least
750,000 may not adopt a budget in which the total amount of budgeted expenditures
related to the compensation of county board members, and to any other costs that are
directly related to the operation and functioning of the county board or committees
of the board, including staff, is greater than 0.4 percent of the county portion of the
tax levy for that year to which the budget applies. The board of a county with a
population of at least 750,000 may not adopt a budget that alters any formula by
which fringe benefits, interdepartmental charges for services, depreciation, or debt
service are allocated in the executive’s budget. An appropriation that is contingent
upon additional approval by the board after the adoption of the budget is included
in the 0.4 percent budget limitation described in this subsection. When so adopted,
the sums provided shall, subject to the provisions of sub. (7), constitute legal 
appropriations and anticipated revenues for the ensuing year.

(6) Milwaukee County Budget Cap. The 0.4 percent budget limitation for a 
county with a population of at least 750,000 that is described in sub. (5) does not 
apply to any of the following elements of the county’s budget:

(a) Any costs related to pension and health care payments for retired county 
officers, employees, and their families.

(b) The costs for the salary, health benefits, and pension benefits of county 
board supervisors and the county board chairperson for any term that begins before 
April 2018.

59.23 (2).

(d) Any costs associated with a department created under s. 59.52 (32).

(e) Space rental that is attributable to the county board.

(7) Transfers of Appropriations. (a) At the request of the head of any 
department, and after receiving the recommendation of the county executive or 
county administrator, the director shall, at any time during the fiscal year, transfer 
any unencumbered appropriation balance or portion thereof between principal 
objects of expenditures within a department; but no transfers shall be made of 
appropriations originating from bond funds unless the purpose for which the bonds 
were issued has been fulfilled or abandoned. If more than one department is under 
the jurisdiction of the same board or commission or under the same general 
management, the group of departments may be considered as though they were a 
single unit with respect to transfers of appropriations within the group.
(b) Upon the recommendation of the finance committee in a county without a county executive or county administrator, or upon the recommendation of the county executive or county administrator in other counties, and by resolution adopted by a majority of the members present and voting at any meeting, the board may transfer any unencumbered appropriation balance or portion thereof from one department or account to another.

(c) 1. Paragraph (b) does not apply to an appropriation which is irrepealable by law.

2. The board may not amend a recommendation under par. (b) to increase the amount to be transferred or to transfer funds to a department other than the department designated as the transferee in the recommendation.

3. No transfer may be made under this subsection unless the director certifies that sufficient unencumbered funds are available for transfer.

(8) BUDGETARY PROCEDURES, BEYOND 2017. (a) For fiscal years that begin after December 31, 2017, a county that chooses under sub. (1) (b) to operate under this section shall adopt a budget that contains the provisions specified in this section.

(b) Beginning in 2017, and in every odd-numbered year thereafter, a county shall adopt a biennial budget following the timeline specified in par. (c) that sets forth all of the following items, and no others, for the 2 fiscal years that immediately follow the year in which the budget is adopted:

1. The county tax levy.

2. Anticipated revenue amounts from all sources.

3. Appropriations for all departments and for any other obligations of the county.

(c) 1. All departments shall submit their budget requests to the director.
2. The county executive, county administrator, or, in a county without a county executive or administrator, the finance committee, shall submit his or her, or its, proposed budget to the board, either electronically or in writing, not later than October 1 of an odd-numbered year.

3. In a county with a county executive, the board shall approve the budget, engrossed with any amendments, and return it to the county executive no later than November 1 of an odd-numbered year. Any amendment to the budget must be submitted to the comptroller or budget director at least 7 business days before the amendment may be considered by the board or by a committee of the board, and the board or committee may not consider any amendment that is not submitted in conformity with this time frame. An amendment shall also include an estimate, prepared by the comptroller, of the costs that will be incurred, and the staffing changes that will be required, to implement the amendment during the next 5 fiscal years. The board shall make the amendment and the estimate available to the public, in an electronic format, at least 24 hours before the amendment may be considered by the board or by a committee of the board. The board shall have the budget resolution prepared as it was adopted by the board, incorporating any adopted amendments, before presenting the resolution to the executive.

4. If a county executive wishes to veto any part of the budget under s. 59.17 (5) or (6), the county executive shall do so no later than November 15 of an odd-numbered year. The board may not schedule a meeting to act on the county executive's vetoes, as described in subd. 5., before it receives the vetoes or November 16 of an odd-numbered year, whichever comes first.
5. The board may act on all of the county executive’s vetoes or changes, as described in s. 59.17 (5) and (6), no later than November 19 of an odd-numbered year, or the vetoes or changes shall be considered to be approved by the board.

6. In a county without a county executive, the board shall approve the budget.

(d) A county that uses the provisions of this section shall utilize fund accounting. Section 59.60 (3m), as it applies to s. 59.60, applies to this section.

(e) After a biennial budget takes effect, if revenues received or expenses incurred by the county are different from the amounts anticipated, the county executive, county administrator, or, in a county without a county executive or administrator, the finance committee, may increase or decrease appropriation amounts as he or she determines is appropriate to account for the changed revenue or expense amounts that affect the county.

(f) Outside of the budget process, the county executive, county administrator, or, in a county without a county executive or administrator, the finance committee may propose to the board an increase or decrease in any appropriation or revenue amount, subject to the budget amendment procedures under par. (c) 3. To be approved, such a proposal requires the affirmative vote of two-thirds of the members-elect of the board and the proposal may not be amended by the board, except that when such a proposal is made, and voted on by the board, after September 30 and before November 16 of any even-numbered year, such a proposal may be approved by a simple majority vote of the members-elect of the board and the board may amend the proposal. Any proposal submitted after September 30 and before October 31 of an even-numbered year shall be voted on by the board before November 16 of that even-numbered year.
(g) With regard to every county department that has appropriations and expenses contained in a budget that is adopted under this section, the budget provisions that apply to such a department shall contain an appropriation account into which a gift or grant bestowed upon that department shall be deposited. If a department receives such a gift or grant, the department may spend the funds, with the consent of the county executive, county administrator, or, in a county without a county executive or administrator, the finance committee, but without county board approval, for the purposes for which the gift or grant was bestowed.

(h) During a biennium, a county board of a county with a county executive may not adopt a resolution to issue a municipal obligation, as defined in s. 67.01 (6), in an amount that is higher than the amount initially proposed by the county executive in his or her proposed budget for that biennium. During a biennium a county executive may propose, outside of the budget process, the issuance of additional municipal obligations, as defined under s. 67.01 (6). The board may approve the county executive’s proposal, but may not increase the amount proposed.

(i) 1. Subject to subd. 2., the board of a county with a population of at least 750,000 may not adopt a budget in which the total amount of budgeted expenditures related to the compensation of county board members, and to any other costs that are directly related to the operation and functioning of the county board or committees of the board, including staff, is greater than 0.4 percent of the county portion of the tax levy for that year to which the budget applies. The board may not alter any formula by which fringe benefits, interdepartmental charges for services, depreciation, or debt service are allocated in the recommended budget. An appropriation that is contingent upon additional approval by the board after the adoption of the budget is included in the 0.4 percent budget limitation described in
this subdivision. When so adopted, the sums provided shall, subject to the provisions
of sub. (7), constitute legal appropriations and anticipated revenues for the ensuing
year.

2. The 0.4 percent budget limitation for a county with a population of at least
750,000 that is described in subd. 1. does not apply to any of the following elements
of the county’s budget:

      officers, employees, and their families.

   b. The costs for the salary, health benefits, and pension benefits of county board
      supervisors and the county board chairperson for any term that begins before April
      2018.

   c. Any costs associated with duties performed by the county clerk under s. 59.23
      (2).

   d. Any costs associated with a department created under s. 59.52 (32).

   e. Space rental that is attributable to the county board.

**SECTION 64.** 59.61 (4) of the statutes is created to read:

59.61 (4) FUND ACCOUNTING. (a) A county that is subject to s. 59.60 shall utilize
fund accounting. Section 59.60 (3m), as it applies to s. 59.60, applies to this
subsection.

(b) In addition to a general fund, a county may create other governmental
funds, proprietary funds, fiduciary funds, and other appropriate funds allowed by
government accounting practice, provided that in creating each fund the county
describes the sources of revenues that may be deposited into each fund and the types
of expenditures that may be made from each fund. Counties may maintain
reasonable balances in each such fund to provide the county with necessary working
capital, based on sound business principles, to avoid cash flow interruptions and the need to engage in short-term borrowing to fund daily operations. In counties with no county executive, the board may create a fund described in this paragraph by ordinance. In counties with a county executive, only the county executive may create a fund described in this paragraph by executive order, and such an executive order may not be modified or otherwise affected by county board action.

(c) A county that creates governmental, proprietary, fiduciary, or other funds under this subsection shall develop policies and procedures that apply to each such fund, including all of the following:

1. Setting a working cash flow target for each fund.
2. Publishing annual estimates of working cash flow balances.
3. A description of possible uses of balances in a fund that accumulate above the cash flow target.

59.69 (2) (a) 2. If the board in a county with a county executive authorizes the creation of a county planning and zoning commission, designated the county zoning agency, the county executive shall appoint the commission, subject to confirmation by the board and to the confirmation provisions of s. 59.17 (2) (b) 1.

SECTION 66. 59.69 (2) (a) 3. of the statutes is amended to read:

59.69 (2) (a) 3. If a county planning and zoning commission is created under subd. 2., the county executive may appoint, for staggered 3-year terms, 2 alternate members of the commission, who are subject to confirmation by the board, and to the confirmation provisions of s. 59.17 (2) (b) 1. Annually, the county executive shall
designate one of the alternate members as first alternate and the other as 2nd alternate. The first alternate shall act, with full power, only when a member of the commission refuses to vote because of a conflict of interest or when a member is absent. The 2nd alternate shall act only when the first alternate refuses to vote because of a conflict of interest or is absent, or if more than one member of the commission refuses to vote because of a conflict of interest or is absent.

Vacancies shall be filled for the residue of the unexpired term in the manner that original appointments are made. Any solid waste management board member may be removed from office by a two-thirds vote of the appointing authority. The solid waste management board may employ a manager for the system. The manager shall be trained and experienced in solid waste management. For the purpose of operating the solid waste management system, the solid waste management board may exercise the following powers, except that the authority to enter into a lease under this subsection may be exercised only by the county executive, if the county has such an office:

the chief executive is the budget director.

(b) “Chief executive” means a mayor or city manager, a village president, or a
town board chairperson.

(c) Notwithstanding s. 65.02 (1), “department” means any department, board,

issue a written proclamation stating that the municipality will use the provisions of
this section instead of the applicable provisions of s. 60.40 or the other provisions of

budget director shall, at any time during the fiscal year, transfer any unencumbered

within a department; but no transfers shall be made of appropriations originating
from bond funds unless the purpose for which the bonds were issued has been
fulfilled or abandoned. If more than one department is under the jurisdiction of the
same board or commission or under the same general management, the group of
departments may be considered as though they were a single unit with respect to
transfers of appropriations within the group.

by a majority of the members present and voting at any meeting, the governing body
may transfer any unencumbered appropriation balance or portion thereof from one
department or account to another.

(e) Outside of the budget process, the chief executive may propose to the governing body an increase or decrease in any appropriation or revenue amount,
subject to the budget amendment procedures under par. (c) 3. To be approved, such
a proposal requires the affirmative vote of two-thirds of the members-elect of the
governing body, as defined in s. 66.10015 (1) (bs), and the proposal may not be
amended by the governing body, except that when such a proposal is made and voted
on by the governing body after September 30 and before November 16 of any
even-numbered year, such a proposal may be approved by a simple majority vote of
the members-elect of the governing body and the governing body may amend the
proposal.

(f) With regard to every municipal department that has appropriations and
expenses contained in a municipality’s budget that is adopted under this section, the
budget provisions that apply to such a department shall contain an appropriation
account into which a gift or grant bestowed upon that department shall be deposited.
If a department receives such a gift or grant, the department may spend the funds,
with the consent of the chief executive, but without the approval of the governing
body, for the purposes for which the gift or grant was bestowed.

(g) During a biennium, a governing body may not adopt a resolution to issue
a municipal obligation, as defined in s. 67.01 (6), in an amount that is higher than
the amount initially proposed by the chief executive in his or her proposed budget for
that biennium. During a biennium a chief executive may propose, outside of the
budget process, the issuance of additional municipal obligations, as defined under
s. 67.01 (6). The governing body may approve the chief executive’s proposal, but may
not increase the amount proposed.

68.14 (1) The seeking of a review pursuant to s. 68.10 or 68.13 does not preclude
a person aggrieved from seeking relief from the governing body of the municipality
