Analysis by the Legislative Reference Bureau

Beginning in the 2018–19 school year, this bill changes the timing of state aid payments to school districts and of payments to operators of independent charter schools, private schools participating in a choice program, and private schools participating in the Special Needs Scholarship Program.

Under current law, a school district receives 15 percent of its state aid in September, 25 percent in December, 25 percent in March and 35 percent in June. Current law also provides an option for a school district to receive its state aid in ten equal monthly payments from September to June. Under current law, if a school district opts to receive its state aid in ten equal payments, the school district must
compensate the state for any lost interest. Under the bill, school districts receive state aid in 12 equal monthly payments. The bill retains the option for a school district to receive its state aid in ten equal payments but eliminates the requirement that such a school district compensate the state for any lost interest.

Under current law, the Department of Public Instruction pays annual amounts due to operators of independent charter schools and to private schools participating in a choice program or the Special Needs Scholarship Program in four equal quarterly installments. These installments are paid in September, November, February, and May. Under the bill, other than for the first school year in which payments are received, DPI pays operators of independent charter schools and private schools participating in a choice program or the Special Needs Scholarship Program in 12 equal monthly installments. For the first school year in which an operator of an independent charter school or private school participating in a choice program receives a payment from DPI and for the first year in which a pupil participates in the Special Needs Scholarship Program, DPI pays the annual amount due in ten equal monthly installments.

For further information see the state and local fiscal estimate, which will be printed as an appendix to this bill.
