- 1 AN ACT *to amend* 218.0116 (2), 218.0116 (4) (a) and 218.0116 (4) (c); and *to*
2 *create* 218.0116 (4) (am) of the statutes; **relating to:** denial, suspension, and
3 revocation of certain licenses related to motor vehicle dealers.

Analysis by the Legislative Reference Bureau

This bill changes the procedures for denials and suspensions and revocations of certain licenses issued to manufacturers, importers, distributors, or dealers of motor vehicles.

Under current law, a manufacturer, importer, distributor, or dealer of motor vehicles that wishes to sell motor vehicles in this state must be licensed by the Department of Transportation. Currently, DOT may deny an application for a license by providing to the applicant a written notice that states the grounds for the denial. Within 30 days after receiving the notice, the applicant may petition the Division of Hearings and Appeals for review of the denial. Also under current law, for a variety of reasons enumerated in existing law, DOT may seek suspension or revocation of a license. The procedure for a suspension or revocation hearing is the following, in general: 1) DOT provides the licensee with notice of the time and place of the hearing at least five days before the hearing; 2) a hearing is conducted before DHA; and 3) DHA issues an order suspending or revoking a license, which may take effect ten days after notice of the suspension or revocation is provided to the licensee. An exception to this procedure allows DOT to expedite a hearing if, in DOT's opinion, the best interest of the public or the trade demands it. Under this exception, DOT must provide at least 24 hours' notice before the hearing and the suspension may take effect 24 hours after notice of the suspension is provided to the licensee.

BILL

This bill changes licensing and suspension and revocation procedures in several respects. First, under this bill, for license denials and license suspensions and revocations, DOT is responsible for the initial determination, and a licensee may appeal the determination to DHA. Second, this bill provides that, in certain cases, a suspension or revocation of a license may take effect immediately. Specifically, a license suspension or revocation takes effect immediately if DOT determines that immediate suspension or revocation is appropriate and alleges any of the following: 1) a license violation in the course of a consignment sale; 2) a sale of a motor vehicle without a dealer license; or 3) intentionally fraudulent conduct related to certificates of title, mileage disclosure, or use of personal identifying information.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.
