**Subject:** Bill Draft request from Sen. Mark Miller

Good afternoon, Eric,

Senator Miller would like a bill drafted to create a grant program through the DOT for sound mitigation for buildings that do not qualify for FAA sound mitigation grants.

- \$250,000 GPR annually provided to the WisDOT to administer the program.
- DOT would develop the criteria for grants.
- This would be for buildings near airports that are home to military installations.
- Priority would be given to public and private schools and child care centers, then private residences.

Is this enough information for a /P1? Let us know if you have any questions. Thank you, Eric. John

2019 BILL

10/18/19

sa ✓

1 AN ACT *to create* 20.395 (4) (fa) and 114.138 of the statutes; **relating to:** an  
2 airport sound mitigation grant program and making an appropriation.

---

***Analysis by the Legislative Reference Bureau***

This bill requires the Department of Transportation to develop and administer an airport sound mitigation grant program. Under the program, DOT must award grants for projects that mitigate the impact of airport sound on structures located near airports that include a military base or installation. DOT is required to give highest priority in awarding these grants to projects involving schools and child care centers and secondary priority to projects involving private residences. The bill provides \$250,000 in each year of the current fiscal biennium for the program.

For further information see the **state** fiscal estimate, which will be printed as an appendix to this bill.
