Hi Fern,

In follow-up to our conversation yesterday, I would like to add curriculum and instructional materials. Also, I think using the non-statutory language/provision we discussed about "before developing instructional material under s. ... the state superintendent shall consult with a Jewish organization that provides materials, programing and professional development and another state's education agency with sample curriculum." Whatever way you think is best to draft it would be good.

I'd be happy to discuss it further and clarify as needed. I will be in throughout the next two weeks and happy to touch base then or if you are gone until the new year, we can also connect at that time.

Thanks!

***Analysis by the Legislative Reference Bureau***

This bill requires the state superintendent of public instruction to incorporate the Holocaust and other genocides into the model academic standards for social studies and to develop model curricula and instructional materials on the same subject. Under the bill, in developing the model curricula and instructional materials, the state superintendent must consult with an organization in this state that provides Holocaust education programs to public and private schools and offers educational tools and training to teachers and with a state agency in another state that has developed model curricula on the Holocaust. Finally, the bill requires a school board, independent charter school, and private school participating in a parental choice program to include instruction on the Holocaust and other genocides in its respective curriculum at least once in grades 5 to 8 and once in grades 9 to 12.
