Subject: Drafting Request - DHS/Water

Hi Mary,

Can you (again, whomever makes sense, etc.) draft ALL of the following in one bill? Sum sufficient funding works for this as well. I will be getting more specific amounts from the agency.

- Funding for additional staff to develop recommendations for groundwater enforcement standards.
- Increase funding for staff and support for DHS to provide technical support and carry out community engagement on drinking water and groundwater issues to support local and tribal health agencies.
- Increase funding to support increased capacity at the State Laboratory of Hygiene to ensure prompt public health response to urgent situations such as PFAS
- Provide additional funding for the Groundwater Coordinating Council
- Additional funding to maintain 2 full time positions to conduct surveillance, investigation, and outreach on public health issues related to waterborne disease outbreaks and harmful algal blooms.

PRELIMINARY DRAFT - NOT READY FOR INTRODUCTION

groundwater contamination

1 AN ACT ...; relating to: groundwater standards and waterborne dangers, funding
2 for the state laboratory of hygiene, and making an appropriation.

Analysis by the Legislative Reference Bureau

This bill does the following related to drinking water and groundwater:

1. Provides an appropriation and authorizes two positions for the Department of Health Services to develop recommendations for groundwater enforcement standards.
2. Provides an appropriation and authorizes two positions for DHS to aid local health departments and tribal agencies with technical support and community engagement on issues involving drinking water and groundwater.
3. Provides an appropriation and authorizes two positions for DHS to conduct surveillance, investigation, and outreach on public health issues related to outbreaks of waterborne diseases and harmful algal blooms.
4. Provides an additional appropriation for the Groundwater Coordinating Council to perform its functions. Under current law, the council advises and assists state agencies related to groundwater monitoring, laboratory analysis, research activities, and public information and education.

The bill also changes the general program operations appropriation for the state laboratory of hygiene in the University of Wisconsin System from a sum certain to a sum sufficient.

For further information see the *state and local* fiscal estimate, which will be printed as an appendix to this bill.
