FOR 2019-2021 BUDGET -- NOT READY FOR INTRODUCTION

1 AN ACT ...; relating to: the budget.

Analysis by the Legislative Reference Bureau
EDUCATION

PRIMARY AND SECONDARY EDUCATION

This bill eliminates the Early College Credit Program. Under the ECCP, a high school pupil, including a high school pupil attending a private school, may enroll in an institution of higher education for the purpose of taking one or more courses to earn high school credit or postsecondary credit or both. An institution of higher education is defined to mean an institution within the UW System, a tribally controlled college, or a private, nonprofit institution of higher education located in this state. The cost of tuition for each course is divided among the (the) state, the school board of the pupil's school or the governing body of the private school the pupil attends, and the pupil. The share that each responsible party pays is dependent on whether the course is taken for high school credit or postsecondary credit and whether a course similar to the course taken at the institution of higher education is comparable to a course offered by the school district or private school.

The bill replaces the ECCP with a requirement that the UW System implement a program to provide tuition-free courses to high school students. See EDUCATION - HIGHER EDUCATION.

This bill also eliminates a program under which high school students may take courses at technical colleges. Under this program, a public school pupil who satisfies certain criteria, including providing timely notice to the pupil's school district, may

apply to attend a technical college for the purpose of taking one or more courses. With an exception, the technical college district board must admit the pupil to the technical college if the pupil meets course prerequisites and there is space available in the course. The pupil is eligible to receive both high school and technical college credit for courses successfully completed at the technical college. If the course is not comparable to courses offered in the school district, the school district must pay to the technical college the pupil's tuition and fees for each course taken for high school credit, and the pupil is not responsible for any portion of the tuition and fees for the course.

The bill replaces this program with a requirement that the technical college districts implement a program to provide tuition-free courses to high school students. See EDUCATION - HIGHER EDUCATION.

HIGHER EDUCATION

This bill requires the Board of Regents of the UW System and technical college district boards to establish policies and implement programs under which students attending high school in this state are admitted, respectively, to the UW System or technical colleges as non-degree students and may enroll in courses offered for credit at a UW System school or technical college. In establishing the policies and implementing the program, the Board of Regents or technical college district board must consult with DPI and coordinate with the school districts and the governing bodies of private schools where the high school students are enrolled. The Board of Regents and technical college district boards may not charge tuition or fees to any high school student, or to the school district or private school in which the student is enrolled, in connection with the student's participation in the program or the student's enrollment in any course under this program. These programs replace the existing Early College Credit Program and dual enrollment program in technical colleges. See EDUCATION - PRIMARY AND SECONDARY EDUCATION.

For further information see the *state and local* fiscal estimate, which will be printed as an appendix to this bill.

FOR 2019-2021 BUDGET -- NOT READY FOR INTRODUCTION

Analysis by the Legislative Reference Bureau

EDUCATION

PRIMARY AND SECONDARY EDUCATION

Anal - title A

This bill eliminates the Early College Credit Program. Under the ECCP, a high school pupil, including a high school pupil attending a private school, may enroll in an institution of higher education for the purpose of taking one or more courses to earn high school credit or postsecondary credit or both. An institution of higher education is defined to mean an institution within the UW System, a tribally controlled college, or a private, nonprofit institution of higher education located in this state. The cost of tuition for each course is divided among the state, the school board of the pupil's school or the governing body of the private school the pupil attends, and the pupil. The share that each responsible party pays is dependent on whether the course is taken for high school credit or postsecondary credit and whether a course similar to the course taken at the institution of higher education is comparable to a course offered by the school district or private school.

The bill replaces the ECCP with a requirement that the UW System implement a program to provide tuition-free courses to high school students. See EDUCATION - HIGHER EDUCATION.

This bill also eliminates a program under which high school students may take courses at technical colleges. Under this program, a public school pupil who satisfies certain criteria, including providing timely notice to the pupil's school district, may

apply to attend a technical college for the purpose of taking one or more courses. With an exception, the technical college district board must admit the pupil to the technical college if the pupil meets course prerequisites and there is space available in the course. The pupil is eligible to receive both high school and technical college credit for courses successfully completed at the technical college. If the course is not comparable to courses offered in the school district, the school district must pay to the technical college the pupil's tuition and fees for each course taken for high school credit, and the pupil is not responsible for any portion of the tuition and fees for the course.

The bill replaces this program with a requirement that the technical college districts implement a program to provide tuition-free courses to high school students. See EDUCATION - HIGHER EDUCATION.

HIGHER EDUCATION

This bill requires the Board of Regents of the UW System and technical college district boards to establish policies and implement programs under which students attending high school in this state are admitted, respectively, to the UW System or technical colleges as nondegree students and may enroll in courses offered for credit at a UW System school or technical college. In establishing the policies and implementing the program, the Board of Regents or technical college district board must consult with DPI and coordinate with the school districts and the governing bodies of private schools where the high school students are enrolled. The Board of Regents and technical college district boards may not charge tuition or fees to any high school student, or to the school district or private school in which the student is enrolled, in connection with the student's participation in the program or the student's enrollment in any course under this program. These programs replace the existing Early College Credit Program and dual enrollment program in technical colleges. See EDUCATION - PRIMARY AND SECONDARY EDUCATION.

For further information see the *state and local* fiscal estimate, which will be printed as an appendix to this bill.
