Erika,

On this one I think I may have erred in trying to make the statutory language more efficient in my original request, so it will need a slight tweak.

In the final sentence of the current language limiting the awards to \$100,000, please specify that this limitation only applies to grants made for marketing purposes. Grants made to regional economic development organizations for other purposes will not be constrained by that limitation.

Let me know if you have any questions on that.

Thanks!
