This bill combines, in a continuing appropriation, funding for grants DHS awards to assist rural hospitals and groups of rural hospitals in procuring infrastructure and increasing case volume to develop accredited graduate medical training programs with funding for grants DHS awards to hospitals to support existing graduate medical training programs. The bill also expands eligibility for both types of grants to all specialties. Under current law, in order to be eligible for a grant, a hospital had to have an existing graduate medical training program in certain prescribed specialty areas or a plan to develop a graduate medical training program in one or more of those specialties.

4 **SECTION 3.** 146.63 (2) (a) of the statutes is amended to read:

5 146.63 (2) (a) Subject to subs. (4) and (5), the department shall distribute
 6 grants from the appropriation under ~~s. 20.435 (1) (f)~~ ^{plain} ~~s. 20.435 (4) (bf)~~ to assist rural
 7 hospitals and groups of rural hospitals in procuring infrastructure and increasing
 8 case volume to the extent necessary to develop accredited graduate medical training
 9 programs. The department shall distribute the grants under this paragraph to rural
 10 hospitals and groups of rural hospitals that apply to receive a grant under sub. (3)
 11 and that satisfy the criteria established by the department under par. (b) and the
 12 eligibility requirement under sub. (6).

History: 2013 a. 20.

13 **SECTION 4.** 146.63 (6) (intro.) of the statutes is amended to read:

14 146.63 (6) ELIGIBILITY. (intro.) A rural hospital or group of rural hospitals may
 15 only receive a grant under sub. (3) if the plan to use the funds involves developing
 16 an accredited graduate medical training program in any of the following specialties
 17 a specialty, including any of the following:

History: 2013 a. 20.

****NOTE: In this version, I modified the introduction to allow for eligibility to any specialty, but leaving intact the existing statutory list of specialties as examples. If you prefer, we can repeal the list entirely. I would have the introduction then read, "A rural hospital or group of rural hospitals may only receive a grant under sub. (3) if the plan to

use the funds involves developing an accredited graduate medical training program in any of the following specialties a specialty area." (or perhaps "one or more specialty areas").

1 SECTION 5. 146.64 (2) (c) 1. of the statutes is amended to read:

2 146.64 (2) (c) 1. The Except as provided under subd. 2., the department shall
3 distribute funds state funds for grants under par. (a) ~~from the appropriation under~~
4 ~~s. 20.435 (4) (b).~~ The department may not distribute more than \$225,000 ~~from the~~
5 ~~appropriation under s. 20.435 (4) (b)~~ in state funds to a particular hospital in a given
6 state fiscal year and may not distribute more than \$75,000 ~~from the appropriation~~
7 ~~under s. 20.435 (4) (b)~~ in state funds to fund a given position in a graduate medical
8 training program in a given state fiscal year.

History: 2013 a. 20.

****NOTE: Because the grant is funded from ^{two} sources (s. 20.435 (4) (b) and 20.435
(4) (bf)), I have eliminated reference to the (4) (b) appropriation to avoid confusion. The
language in both of those chapter 20 provisions allowing the use of funds for grants under
146.64 is sufficient.

9 SECTION 6. 146.64 (4) (intro.) of the statutes is amended to read:

10 146.64 (4) ELIGIBILITY. (intro.) A hospital that has an accredited graduate
11 medical training program in ~~any of the following specialties a specialty, including~~
12 any of the following may apply to receive a grant under sub. (3):

History: 2013 a. 20.

****NOTE: As with s. 146.63 (6), I left the list of specialties intact as part of an
"including" list, but you could repeal the list entirely. Please let me know if you prefer to
do that.

Sarah,

Please update draft 1772/P1, Section 5, 146.64(2)(c)(1) to reference 20.435(4)(BF) instead of state funds. Currently the reference 20.435(4)(b) is obsolete.

1. Graduate medical training support grants

This bill combines, in a continuing appropriation, funding for grants DHS awards to assist rural hospitals and groups of rural hospitals in procuring infrastructure and increasing case volume to develop accredited graduate medical training programs with funding for grants DHS awards to hospitals to support existing graduate medical training programs. The bill also expands eligibility for both types of grants to all specialties. Under current law, in order to be eligible for a grant, a hospital has to have an existing graduate medical training program in certain prescribed specialty areas or a plan to develop a graduate medical training program in one or more of those specialties.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:
