Agency Acronym: 395

Agency Number: 395

Priority: Medium

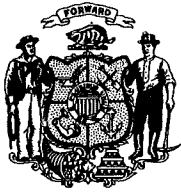

Intent:

Remove from 84.016(2) the language "including preliminary design work for the project".

This should allow all preliminary design work for interstate bridges to be paid for by the State Highway Rehabilitation appropriations (20.395 (3) cq and 20.395 (3) cx). But if the drafters determine that clarity is needed to ensure that, please add language that supports that outcome.

~~#~~ ***Interstate bridge design funding***

Under current law, this state's share of costs for any major interstate bridge project, including preliminary design work for the project, may be funded only from specified appropriations. "Major interstate bridge project" means a project involving the construction or reconstruction of a bridge on the state trunk highway system, including approaches, that crosses a river forming a boundary of the state and for which this state's estimated cost share is at least \$100,000,000. *(off)*

This bill eliminates the reference to preliminary design work being a part of a major interstate bridge project that may be funded only from specified appropriations.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:
