- ** • Modifications to WEDC Board of Directors and CEO (Page 454, #15)

WISCONSIN TECHNICAL COLLEGE SYSTEM

- Y2AV • Revenue Limit -- 2% Minimum Increase (Page 457, #3)
- b0132

in any year by a percentage greater than the district's valuation factor. The valuation factor is defined as the greater of either zero percent or the percentage change in the district's January 1 equalization value due to the aggregate new construction, less improvements removed, in municipalities located in the district between the previous year and the current year, as defined by the Department of Revenue. For purposes of this revenue limit, revenue is defined as the sum of the tax levy and state property tax relief aid. State general and categorical aids are not counted towards the revenue limit.

In 2018-19, valuation factors ranged from 0.7% in Nicolet to 2.2% in Chippewa Valley and Madison. The statewide average was equal to 1.5%.

[Bill Sections: 380 and 9342(1)]

447: 19-23

1137: 3 1/2 4

4. DUAL ENROLLMENT

Governor: Delete the program under which high school students can take courses offered by technical colleges under current law.

Instead, create a dual enrollment program under which a student attending high school in Wisconsin may be admitted as a non-degree student to the technical colleges located in the technical college district in which the student resides, and may enroll in courses of instruction offered for transcribed credit. Specify that for a student to enroll in such courses, the student must meet the requirements and prerequisites of the course, and there must be space available in the course. Define "transcribed credit" as a program under which the technical college in which a high school student is enrolled awards postsecondary credit for successful course completion and issues a transcript from the technical college documenting successful completion of the course and the credits awarded for the course, if such a transcript is requested.

Require each district board to establish policies and implement the program, and in establishing the program to consult with DPI and coordinate with school districts and the governing bodies of private schools where the high school students are enrolled. Prohibit a district board from charging any fees to any high school student, or to the school district or private school in which the student is enrolled, in connection with the student's participation in the program or the student's enrollment in any course under this program.

Require a student who intends to enroll in a technical college under this program to notify the school board of the public school district in which the student is enrolled or the governing body of the private school in which the student is enrolled no later than March 1 if the student intends to enroll in the fall semester, or October 1 if the student intends to enroll in the spring semester. Require the notice to include the titles of the courses in which the student intends to enroll and the number of credits of each course, and specify whether the student will be taking the courses for high school credit as well as post-secondary credit.

If the student intends to take a course for high school credit, require the school board or the private school governing body to determine whether the course satisfies any requirements necessary for high school graduation and the number of high school credits to award the student
