18 (intro.) and amended to read:

19 59.69 (10) (ab) (intro.) In this subsection "~~nonconforming use~~":

1 3. “Nonconforming use” means a use of land, a dwelling, or a building that
2 existed lawfully before the current zoning ordinance was enacted or amended, but
3 that does not conform with the use restrictions in the current ordinance.

4 **SECTION 760g.** 59.69 (10) (ab) 1. of the statutes is created to read:

5 59.69 (10) (ab) 1. “Contiguous” means sharing a common boundary or being
6 separated only by a waterway, section line, public road, private road, transportation
7 right-of-way, or utility right-of-way.

8 **SECTION 760k.** 59.69 (10) (ab) 1m. of the statutes is created to read:

9 59.69 (10) (ab) 1m. “Contiguous parcel” means any parcel of land, up to a
10 cumulative limit of 80 acres, that, as of January 1, 2001, is contiguous to and is
11 located in the same political subdivision as land on which a quarry existed lawfully
12 before the quarry became a nonconforming use, is under the common ownership,
13 leasehold, or control of the person who owns, leases, or controls the land on which the
14 quarry is located, and is shown to have been intended for quarry operations prior to
15 the effective date of the ordinance that rendered the use nonconforming. For
16 purposes of this subdivision, if the contiguous parcel of land was commonly owned,
17 leased, or controlled on January 1, 2001, there is a presumption that the contiguous
18 parcel of land was intended for quarry operations prior to the effective date of the
19 ordinance that rendered the use nonconforming.

20 **SECTION 760p.** 59.69 (10) (ab) 2. of the statutes is created to read:

21 59.69 (10) (ab) 2. “Nonconforming quarry site” means land on which a quarry
22 existed lawfully before the quarry became a nonconforming use, including any
23 contiguous parcel. The nonconforming status of any contiguous parcel shall be
24 subject to the requirement that, on a 5 year rolling average, 75 percent of the quarry
25 materials extracted from the contiguous parcel shall be used for

1 infrastructure-related projects, as determined by the quarry operator. If this 75
2 percent requirement is not met as to any contiguous parcel, the nonconforming
3 status of the contiguous parcel may be suspended. This definition does not preclude
4 a determination that a particular parcel of land is nonconforming under subd. 3. or
5 common law.

16 CONSTRUCTION. (a) Nothing in this section may be construed to affect the authority
 17 of a political subdivision to regulate land use for a purpose other than quarry
 18 operations.

19 (b) Nothing in this section may be construed to exempt a quarry from a

1 other property in the political subdivision that is not a quarry unless the regulation
2 is inconsistent with this section.

3 (2) DEFINITIONS. In this section:

4 (a) "Permit" means a form of approval granted by a political subdivision for the
5 operation of a quarry.

6 (b) "Political subdivision" means a city, village, town, or county.

7 (c) "Quarry" means the surface area from which nonmetallic minerals,
8 including soil, clay, sand, gravel, and construction aggregate, that are used primarily
9 for a public works project or a private construction or transportation project are
10 extracted and processed.

11 (d) "Quarry operations" means the extraction and processing of minerals at a
12 quarry and all related activities, including blasting, vehicle and equipment access
13 to the quarry, and loading and hauling of material to and from the quarry.

14 (3) LIMITATIONS ON LOCAL REGULATION. (a) *Permits*. 1. Consistent with the
15 requirements and limitations in this subsection, except as provided in subd. 2., a
16 political subdivision may require a quarry operator to obtain a zoning or nonzoning
17 permit to conduct quarry operations.

18 2. A political subdivision may not require a quarry operator to obtain a zoning
19 or nonzoning permit to conduct quarry operations unless prior to the establishment
20 of quarry operations the political subdivision enacts an ordinance that requires the
21 permit. A political subdivision may not require a quarry operator to obtain a
22 nonzoning permit to conduct quarry operations if the quarry operation operates
23 under a previously issued zoning permit.

24 (b) *Applicability of local limit*. If a political subdivision enacts a nonzoning
25 ordinance regulating the operation of a quarry that was not in effect when quarry

1 operations began at a quarry, the limit does not apply to that quarry or to land that
2 is contiguous, as defined in s. 59.69 (10) (ab) 1., to the land on which the quarry is
3 located, is under the common ownership, leasehold, or control of the person who
4 owns, leases, or controls the land on which the quarry is located, and is located in the
5 same political subdivision.

6 (c) *Blasting*. 1. In this paragraph, “affected area” means an area within a
7 certain radius of a blasting site that may be affected by a blasting operation, as
8 determined using a formula established by the department of safety and professional
9 services by rule that takes into account a scaled-distance factor and the weight of
10 explosives to be used.

11 2. Except as provided under subds. 3. and 4., a political subdivision may not
12 limit blasting at a quarry.

13 3. A political subdivision may require the operator of a quarry to do any of the
14 following:

15 a. Before beginning a blasting operation at the quarry, provide notice of the
16 blasting operation to each political subdivision in which any part of the quarry is
17 located and to owners of dwellings or other structures within the affected area.

18 b. Before beginning a blasting operation at the quarry, cause a 3rd party to
19 conduct a building survey of any dwellings or other structures within the affected
20 area.

21 c. Before beginning a blasting operation at the quarry, cause a 3rd party to
22 conduct a survey of and test any wells within the affected area.

23 d. Provide evidence of insurance to each political subdivision in which any part
24 of the quarry is located.

1 e. Provide copies of blasting logs to each political subdivision in which any part
2 of the quarry is located.

3 f. Provide maps of the affected area to each political subdivision in which any
4 part of the quarry is located.

5 g. Provide copies of any reports submitted to the department of safety and
6 professional services relating to blasting at the quarry.

7 4. A political subdivision may suspend a permit for a violation of the
8 requirements under s. 101.15 relating to blasting and rules promulgated by the
9 department of safety and professional services under s. 101.15 (2) (e) relating to
10 blasting only if the department of safety and professional services determines that
11 a violation of the requirements or rules has occurred and only for the duration of the
12 violation as determined by the department of safety and professional services.

13 (d) *Water quality or quantity.* 1. Except as provided under subds. 2. to 5., a
14 political subdivision may not do any of the following with respect to the operation of
15 a quarry:

16 a. Establish or enforce a water quality standard.

17 b. Issue permits, including permits for discharges to the waters of the state, or
18 any other form of approval related to water quality or quantity.

19 c. Impose any restriction related to water quality or quantity.

20 d. Impose any requirements related to monitoring of water quality or quantity.

21 2. A political subdivision may take actions related to water quality that are
22 specifically required or authorized by state law.

23 3. A political subdivision may require the operator of a quarry to conduct and
24 provide water quality and quantity baseline testing and ongoing quality testing, to
25 occur not more frequently than annually, of all wells within 1,000 feet of the

1 perimeter of a quarry site when a new high capacity well is added to an existing
2 quarry site or a new quarry site is established. A testing requirement under this
3 subdivision may not impose any standard that is more stringent than the standards
4 for groundwater quality required by rules promulgated by the department of natural
5 resources. The political subdivision may request a report of well testing results
6 within 30 days of the completion of testing, and the quarry operator shall provide the
7 results within that time. Any person offered the opportunity to have a well tested
8 under this subdivision but who knowingly refuses testing waives any claim against
9 a quarry operator related to the condition of the well if, within 90 days of the offer,
10 the quarry operator records with the register of deeds for the county in which the well
11 is located a written and sworn certification that the person refused the offer.

12 4. A political subdivision that imposes a requirement to conduct any ongoing
13 water quality or quantity testing of wells adjacent to an existing quarry prior to the
14 effective date of this subdivision [LRB inserts date], may continue to do so.

15 5. In addition to the ability to enforce properly adopted local regulations as
16 allowed by this section, a political subdivision may suspend a permit authorizing the
17 operation of a quarry for a violation of state law or rules promulgated by the
18 department of natural resources relating to water quality or quantity only if the
19 department of natural resources determines that a violation of state law or rules has
20 occurred and only for the duration of the violation, as determined by the department
21 of natural resources.

22 (e) *Air quality.* 1. Notwithstanding s. 285.73, and except as provided under
23 subs. 2. to 4., a political subdivision may not do any of the following with respect to
24 the operation of a quarry:

1 a. Establish or enforce an ambient air quality standard, standard of
2 performance for new stationary sources, or other emission limitation related to air
3 quality.

4 b. Issue permits or any other form of approval related to air quality.

5 c. Impose any restriction related to air quality.

6 d. Impose any requirement related to monitoring air quality.

7 2. A political subdivision may require the operator of a quarry to use best
8 management practices to limit off-site fugitive dust and may enforce properly
9 adopted fugitive dust regulations.

10 3. A political subdivision may take actions related to air quality that are
11 specifically required or authorized by state law.

12 4. In addition to the ability to enforce properly adopted local regulations as
13 allowed by this section, a political subdivision may suspend a permit authorizing the
14 operation of a quarry for a violation of state law or rules promulgated by the
15 department of natural resources relating to air quality only if the department of
16 natural resources determines that a violation of state law or rules has occurred and
17 only for the duration of the violation, as determined by the department of natural
18 resources.

19 (f) *Quarry permit requirements.* 1. A political subdivision may not add a
20 condition to a permit during the duration of the permit unless the permit holder
21 consents.

22 2. If a political subdivision requires a quarry to comply with another political
23 subdivision's ordinance as a condition for obtaining a permit, the political
24 subdivision that grants the permit may not require the quarry operator to comply

1 with a provision of the other political subdivision's ordinance that is enacted after the
2 permit is granted and while the permit is in effect.

3 3. a. A town may not require, as a condition for granting a permit to a quarry
4 operator, that the quarry operator satisfy a condition that a county requires in order
5 to grant a permit that is imposed by a county ordinance enacted after the county
6 grants a permit to the quarry operator.

7 b. A county may not require, as a condition for granting a permit to a quarry
8 operator, that the quarry operator satisfy a condition that a town requires in order
9 to grant a permit that is imposed by a town ordinance enacted after the town grants
10 a permit to the quarry operator.”.
