1 **AN ACT** *to create* 20.395 (1) (av) and 86.30 (3) of the statutes; **relating to:**  
2 supplemental transportation aids to towns.

---

***Analysis by the Legislative Reference Bureau***

Under current law, the Department of Transportation administers a general transportation aids program that makes transportation aid payments to a county based on a share-of-costs formula, and to a municipality based on the greater of a share-of-costs formula or an aid rate per mile. Under the program, no municipality may be paid an amount greater than 85 percent of its three-year average costs.

Under this bill, DOT must make supplemental aid payments totaling \$2,500,000 to towns that are limited by the average costs threshold. The amount of aid a town receives is based on the total mileage of town highways in towns eligible to receive aid, except that a town's supplemental aid, when combined with its general transportation aid, may not exceed 100 percent of its three-year average costs.

DOT must calculate the amount payable to towns under the bill by October 1 of each year and must make payments no later than the first Monday in January of the following year. The bill requires DOT to recalculate the amount of aid payable and to continue making aid payments until DOT has expended \$2,500,000, or each town eligible for aid has received an amount equal to 100 percent of the town's three-year average costs, whichever occurs first.

For further information see the *state and local* fiscal estimate, which will be printed as an appendix to this bill.

**The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:**
