The items on this list we will not be including are:

### Choice, Charter, and Open Enrollment

21) Replace Early College Credit Program with Dual Enrollment Programs

### Administrative and Other Funding

1) Standard Budget Adjustments

7) Debt Service Reestimate

8) Fuel and Utilities Reestimate

This should be it by now. The only item I wasn't sure about yet was the Revenue Limit Per Pupil Adjustment.

Rick and Cathlene-

Attached, you will find five spreadsheets with our budget amendments. On two of the spreadsheets (Hintz\_Higher Education Omnibus & Hintz\_Health Omnibus), you will notice that a couple of the items are in bold. Those are in bold because I will need to speak to you about those Thursday afternoon sometime. In addition, I may have one addition to the Hintz\_Health Omnibus amendment. I will also contact you tomorrow on that piece either way.

Please let me know if you have any questions or need clarification on any of these items. If I am not in the office, I can also be reached on my cell phone at 414-559-7094.

Thank you very much,

### **Broadband Expansion Grants (Public Service Commission -- Broadband Provisions)**

[LFB 2019-21 Budget Summary: Page 23, #5, Page 360, #1 and Page 361, #2]

---

#### **CURRENT LAW**

The Public Service Commission (PSC) administers the broadband expansion grant program, created by 2013 Wisconsin Act 20. Profit and not-for-profit organizations, telecommunications utilities, and those organizations and utilities in partnership with municipalities and counties are eligible to apply for grants. Grants are to be used for projects that increase broadband access and capacity in underserved areas of the state. Priority is given to projects that include matching funds, involve public-private partnerships, affect areas with no broadband service providers, are scalable, promote economic development, or affect a large geographic area or a large number of underserved individuals or communities.

Since 1996, the PSC has administered the universal service fund (USF) to ensure that all state residents receive essential telecommunications services. Funding for USF programs is derived from PSC assessments on companies providing retail intrastate voice telecommunications services. Providers pay assessments monthly based on an assessment rate that the PSC adjusts annually. The Federal Communications Commission (FCC) administers a federal USF, funded by assessments on telecommunications carriers that provide interstate telecommunications services. Under the federal USF, FCC has made funding available to broadband providers to extend broadband service to rural areas through two programs. The Connect America Fund (CAF) assists providers subject to "price cap" regulation (generally larger providers), and the Alternative Connect America Cost Model (A-CAM) assists providers subject to "rate-of-return" regulation (generally smaller providers). Another federal USF program, known as "e-rate," provides support for telecommunications services, including broadband, to schools and libraries.

## GOVERNOR

Create a biennial appropriation and provide \$30,400,000 GPR in 2019-20 and \$20,000,000 GPR in 2020-21 PSC's broadband expansion grant program. Further, transfer \$6,900,000 FED in 2019-20 and \$17,300,000 FED in 2020-21 from the Department of Administration's (DOA) federal e-rate aid appropriation to the USF and reestimate the USF SEG continuing appropriation for the broadband expansion grant program by the same amount. Additionally, provide \$53,000 PR in 2019-20 and \$70,700 PR in 2020-21 with 1.0 position in the Commission's State Broadband Office to assist in administering the grant program.

Modify the definitions of unserved and underserved broadband areas for the purposes of awarding grants under the broadband expansion grant program. Define unserved areas as those in which households or businesses lack access to broadband service of at least 10 megabits per second (Mbps) download speed and 1 Mbps upload speed. (Broadband download and upload speeds are abbreviated in this paper, such as 10/1 reflecting 10 Mbps download speed and 1 Mbps upload speed.) Define underserved areas as those in which households or businesses lack access to broadband service of at least 25/3. In an errata item, the administration indicated it intended: (a) to define underserved areas as lacking access to at least two providers and speeds of at least 25/3; and (b) to define broadband as either fixed wireless or wired service. (Attachment 1 provides a graphic that demonstrates the difference between current law, the bill as introduced, and the bill as amended by the errata item. Attachment 2 provides maps showing the current law and errata definitions applied to Wisconsin, by census block. Maps provided in Attachment 2 were created by PSC and are intended for informational purposes only.)

## DISCUSSION POINTS

### A. Broadband Expansion Grant Funding

1. Table 1 shows fund sources for broadband expansion grants since 2013-14. Funding has been provided from: (a) a transfer from DOA's PR appropriation for information technology and communications services to nonstate entities (2013 Act 20); (b) transfers from the unencumbered balance of the universal service fund (2015 Wisconsin Act 55 and 2017 Wisconsin Act 59); (c) PSC's "sweep" of unexpended amounts in other USF appropriations to the broadband expansion grants appropriation for fiscal years 2017-18 onward (2017 Act 59); and (d) federal e-rate funds (2017 Act 59).

2. Under the Governor's proposal, 2019-21 broadband expansion grants would be supported by: (a) PSC's current-law sweep of unexpended amounts in other USF appropriations to the broadband expansion grants appropriation; (b) a transfer of \$6.9 million FED in 2019-20 and \$17.3 million FED in 2020-21 to the USF from DOA's federal e-rate aid appropriation; and (c) a separate GPR appropriation, which would provide new funding of \$30.4 million in 2019-20 and \$20 million in 2020-21. Thus, in the 2019-21 biennium, funding would total at least \$39.3 million each year for broadband expansion grants, with any funding above this amount reflecting sweeps above the minimum \$2 million. While PSC has limited ability to assess for broadband expansion grants if sweeps do not total \$2 million, PSC has not yet utilized this authority to date, as swept amounts totaled

**ALTERNATIVES**

**A. Broadband Expansion Grant Funding**

1. Adopt the Governor's proposal to: (a) create a biennial appropriation and provide \$30,400,000 GPR in 2019-20 and \$20,000,000 GPR in 2020-21; and (b) transfer \$6,900,000 FED in 2019-20 and \$17,300,000 FED in 2020-21 from the Department of Administration's federal e-rate aid appropriation. Provide the broadband expansion grants USF SEG appropriation the amounts of the FED transfer each year.

ALT A1	Change to	
	Base	Bill
GPR	\$50,400,000	\$0
SEG	<u>24,200,000</u>	<u>0</u>
Total	\$74,600,000	\$0
FED-Transfer	-\$24,200,000	\$0
SEG-Transfer	24,200,000	0

2. Transfer funding from the Department of Administration's federal e-rate aid appropriation to the USF SEG appropriation for broadband expansion grants, consisting of one of the following. (Either of these could be moved in addition to alternatives under A3.)

a. \$22,000,000 FED each year.

ALT A2a	Change to	
	Base	Bill
GPR	\$0	-\$50,400,000
SEG	<u>44,000,000</u>	<u>19,800,000</u>
Total	\$44,000,000	-\$30,600,000
FED-Transfer	-\$44,000,000	-\$19,800,000
SEG-Transfer	44,000,000	19,800,000

b. \$7,000,000 FED each year. (This would provide funding equal to the amount provided for broadband expansion grants under 2017 Act 59, excluding sweeps of unexpended amounts in other USF appropriations.)

ALT A2b	Change to

GPR	\$0	-\$50,400,000

**B. Grant Management Position**

1. Adopt the Governor's proposal to provide 1.0 PR position for grant management activities, and provide \$53,000 PR in 2019-20 and \$70,700 PR in 2020-21.

**C. Definition of Broadband Service**

1. Adopt the Governor's proposal, as introduced, which would define unserved areas as those lacking broadband speeds of at least 10/1 and underserved areas as those lacking access to speeds of at least 25/3. Additionally, adopt the errata item that specifies broadband service may include either wired service or fixed wireless service.

2. Adopt the Governor's proposal, as amended by an errata item, which would define unserved areas as those lacking broadband speeds of at least 10/1 and underserved areas as those lacking speeds of at least 25/3 and at least two providers. Additionally, adopt the errata item that specifies broadband service may include either wired service or fixed wireless service.

3. Modify the current-law definition of underserved areas of broadband service to specify that underserved broadband service also includes either wired service or fixed wireless service.

4. Take no action. (Unserved areas would remain defined as those lacking speeds of at least 5/0.6, and that are not served by fixed wireless or wired service. Underserved areas would remain defined as those with only one provider.)

service, which would modify eligibility for and prioritization of broadband expansion grant awards.

Federal e-rate aid generally supports funding to schools, libraries, and other educational entities to provide affordable access to telecommunications service. As of June 30, 2018, the balance of the federal e-rate continuing appropriation was \$28.8 million. [For further information on changes to e-rate, see "Administration -- General Agency Provisions."]

1950/P4 ss. 1, 2, 3.

## 2. DEFINITION OF BROADBAND

**Governor:** Modify the definitions of unserved and underserved broadband areas for the purposes of awarding grants under the broadband expansion grant program. Define unserved areas as those in which households or businesses lack access to broadband service of at least 10 megabits per second (Mbps) download speed and 1 Mbps upload speed. Define underserved areas as those in which households or businesses lack access to broadband service of at least 25 Mbps download speed and 3 Mbps upload speed.

The bill definition for an underserved area would adopt the current Federal Communications Commission (FCC) minimum speed benchmark for service to be considered high-speed broadband. Federal law requires the FCC and state telecommunications agencies to encourage the nationwide deployment of such high-speed broadband capabilities. Similarly, state statutes require PSC to make broadband expansion grants to unserved and underserved areas and to encourage the development of broadband infrastructure in underserved areas. Under current law, underserved areas are defined as those served by fewer than two broadband service providers. Unserved areas are defined as those without a fixed wireless or wired internet service of at least 5 Mbps download speed and 0.6 Mbps upload speed, or 20% of the benchmark speed set by the FCC.

[Bill Sections: 1819 thru 1821]

1957/P1 ss. 1-3.

## 3. MUNICIPAL BROADBAND FACILITIES IN UNDERSERVED OR UNSERVED AREAS

**Governor:** Modify the current law provisions relating to the municipal broadband facilities to create separate requirements for broadband facilities that are intended to serve an underserved or unserved area. (The provision would adopt amended definitions for unserved and underserved areas created under the bill and described in the previous item.)

Under current law, no city, village, or town may enact an ordinance or adopt a resolution authorizing the municipality to construct, own, or operate any facility for providing video service, telecommunications service, or broadband service to the public unless certain public hearing, notice, revenue and cost reporting, and cost-benefit analysis requirements are met. Specifically, municipalities are to provide personnel costs and costs of acquiring, installing, maintaining, repairing, or operating any plant or equipment. Additionally, municipalities are to include an

clusters." Under current law, a location is considered a rural territory if it is defined by the U.S. Census Bureau as such. Current eligibility is further limited by the location's distance from an urbanized area or urban cluster. Specify that a consortium of public libraries or a public library system is eligible if it contains three or more eligible public libraries or library branches and it applies for a grant.

*Educational Technology Training Grants.* Eliminate the educational technology training grant program, which provides funding to train teachers and librarians to use educational technology. Under current law, DOA must award a maximum of \$1,500,000 annually to eligible consortia of school districts, public libraries, and public library systems.

*Curriculum Grants.* Eliminate curriculum grants to develop and implement a technology-enhanced high school curriculum. Under current law, DOA must provide a maximum of \$25,000 annually to eligible consortia of school districts.

**5. FEDERAL E-RATE FUNDS TRANSFER TO THE UNIVERSAL SERVICE FUND**

**Governor:** Transfer \$24,200,000 FED (\$6,900,000 in 2019-20 and \$17,300,000 in 2020-21) from DOA's federal e-rate aid appropriation to the Universal Service Fund, administered by the Public Service Commission. Transferred funds are intended for broadband expansion grants to construct broadband infrastructure in underserved areas. [See "Public Service Commission."]

Federal e-rate funds are provided to the state to reimburse eligible expenses and are utilized for: (a) administration of the educational telecommunications access program, known as TEACH; (b) principal, interest, and rebate reimbursements related to financing educational technology infrastructure assistance to schools and public library boards; (c) payments to telecommunications providers that provide services to educational agencies eligible for rate discounts; and (d) other payments to eligible educational agencies to cover the costs of data lines, video links, and bandwidth access.

**6. MODIFY APPROPRIATION AUTHORITY FOR RISK MANAGEMENT ADMINISTRATION**

PR	\$2,825,000
----	-------------

**Governor:** Modify DOA's appropriation for risk management administration from an annual appropriation to a continuing appropriation. As under current law, specify that at the end of each fiscal year, the unencumbered balance of the appropriation would be transferred from the risk management administration appropriation to the risk management costs appropriation. The latter appropriation receives all risk management assessment revenues and pays for the expenses of the program, including transfers to the appropriation for administration, and which is used to pay claims for state property, liability, and worker's compensation losses. The Executive Budget Book indicates that the Governor recommends converting the appropriation from annual to

Hello:

I'm working on an Assembly Democrat budget amendment that would adopt the above alternative, which provides for 1.0 PR position for grant management.

Can you tell me which PR appropriation would be used to fund that position?

Thanks,
