Analysis by the Legislative Reference Bureau

This bill regulates the operation of electric bicycles.

Under current law, a motor bicycle is “a bicycle to which a power unit [that is] not an integral part of the vehicle has been added to permit the vehicle to travel at a speed of not more than 30 miles per hour with a 150-pound rider on a dry, level, hard surface with no wind and having a seat for the operator” or “a 2-wheeled or 3-wheeled vehicle that has fully operative pedals for propulsion by human power and an electric motor of less than 750 watts and that is capable, when powered solely by the motor, of a maximum speed of less than 20 miles per hour with a 170-pound rider on a dry, level, hard surface with no wind.” In general, a motor bicycle is subject to the same rules as other bicycles and an operator of a motor bicycle is subject to the same rules and is afforded the same privileges as operators of other bicycles. An operator of a motor bicycle, however, must possess a valid operator’s license.

This bill eliminates the second type of motor bicycle and establishes a similar definition for electric bicycle. Unlike an operator of a motor bicycle, however, an operator of an electric bicycle is not required to hold an operator’s license.

ASSEMBLY BILL 132

Under this bill, an electric bicycle is “a bicycle that is equipped with fully operative pedals for propulsion by human power and an electric motor of less than 750 watts.” Electric bicycles are divided into three classes, as follows:

1. Class 1 electric bicycles provide assistance only when the rider is pedaling and cease to provide assistance when the bicycle reaches the speed of 20 miles per hour.

2. Class 2 electric bicycles may be powered solely by the motor and are not capable of providing assistance when the bicycle reaches the speed of 20 miles per hour.

3. Class 3 electric bicycles provide assistance only when the rider is pedaling and cease to provide assistance when the bicycle reaches the speed of 28 miles per hour.

In general, an electric bicycle is subject to the same rules as other bicycles and an operator of an electric bicycle is subject to the same rules and is afforded the same privileges as operators of other bicycles, with the following exceptions:

1. Persons under the age of 16 years may not operate a class 3 electric bicycle.

2. A manufacturer or distributor of an electric bicycle must affix a label containing the classification number of the electric bicycle, the speed at which the motor will cease to provide assistance or power, and the wattage of the motor equipped to the electric bicycle.

3. Either the motor must cease to provide assistance or power when the brakes are applied or the motor must cease to provide assistance or power when the rider stops pedaling.

4. A person may not operate a class 3 electric bicycle unless the electric bicycle is equipped with a speedometer.

5. The Department of Transportation or local authorities may prohibit the operation of electric bicycles, with the power unit in operation, on designated bikeways.

For further information see the *state and local* fiscal estimate, which will be printed as an appendix to this bill.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:
