Subject: AB 132 amendment

Hi, Eric,

Would you please draft an amendment to AB 132 that changes the description of the electric motor from “less than 750 watts” to “750 watts or less”? (This is in response to a comment by a dealer in Rep. Stafsholt’s district – apparently, most of his products have 750-watt motors, and a quick skim online indicates 750 W isn’t uncommon.)

I know the federal regulation referred to in AA 2 also says 750 W or less, but AA 2 would ensure that the federal requirements continue to apply even to e-bikes at 750 W.

Senator Roth’s office will introduce a similar amendment to SB 129.

Thanks!

Matt Pulda
