Subject: FW: Lyme Disease Bill Draft Requests

Hi Lis and Zack:

Sen. Cowles office contacted me yesterday regarding some requests related to Lyme disease. A couple of the requests are DNR related (see below—I've omitted the other nonrelated requests). Could you let me know who will take these, or if they fall in another drafting area? I have a couple of follow up comments from the office once we have drafters.

Thanks,
Sarah

Subject: Lyme Disease Bill Draft Requests

Hi Sarah,

Following-up on our phone conversation, below is the outline of the seven bills we're looking to get drafted relating to Lyme Disease.

delayed off-date ok - 6mo/1 yr?

Draft 6: Requiring Signs on Ticks and Lyme Disease on Certain State Properties

- Require signage designed in consultation with DHS to raise awareness of Lyme Disease, inform on how to prevent tick bites, and encouraging visitors to check for ticks after visits to be posted in common areas such as the park entrance, a trailhead, or in a campground in all state parks and forests (at least one sign per property)
 - Provide time for DNR and DHS to post the signs through delayed implementation

Draft 7: Requiring the Sale of Bug Spray at Certain State Properties

- Require the DNR to sell bug spray in all state parks and forests when their park or forest office is open and staffed or require the DNR to create an agreement with a Friends group who has an active presence in parks such as operating a concession stand to sell bug spray when the stand is open and staffed
 - Allow for some flexibility in this mandate in case the Department or Friends group is out of stock or does not have an active presence in the park or forest

Please let me know if you have any questions, and thank you in advance for all of your help with these drafts.

Best,

Evan

1 **AN ACT ...; relating to:** signs informing about Lyme disease in state parks, state
2 trails, and state forests.

Analysis by the Legislative Reference Bureau

This bill requires the Department of Natural Resources, in consultation with the Department of Health Services, to design signs to raise awareness of Lyme disease, inform about how to prevent tick bites, and encourage people to check for ticks after visits to state parks, state trails, and state forests. The bill requires DNR to post at least one sign in each state park, state trail, and state forest in a common area where it is most likely to be seen by visitors, such as a park entrance, trailhead, or campground.

For further information see the **state** fiscal estimate, which will be printed as an appendix to this bill.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

3 **SECTION 1.** 23.118 of the statutes is created to read:
4 **23.118 Signage required.** The department shall, in consultation with the
5 department of health services, design signs to raise awareness of Lyme disease,
6 inform about how to prevent tick bites, and encourage people to check for ticks after

SECTION 1

first

1 visits to state parks, state trails, and campgrounds. No later than the 1st day of the
 2 6th month beginning after the effective date of this section ... [LRB inserts date], the
 3 department shall post at least one such sign in each state park, state trail, and state
 4 forest. The department shall post the sign in a common area where it is most likely
 5 to be seen by visitors, such as a park entrance, trailhead, or campground.

***NOTE: This is drafted to require the signs to be designed, manufactured, and
 posted 6 months after the effective date. Is that sufficient?

Subject: LRB 1758

Hi Lis,

Thank you for your work on LRB 1758/P1 regarding signage for Lyme Disease awareness.

With regards to the note you had at the end of the draft, six months seems like a sufficient implementation period on our end. We are yet to run this idea by the Department, and when we get to that stage, if they do not feel it is feasible but offer an alternative timeline which is reasonable, we will address it then.

In the meantime, I just have one edit for a P2 that I missed when I sent the drafting instructions in. On Page 2 lines three to four, can we expand this requirement to state recreational areas along with the parks, trails, and forests so each property in the State Park System is included?

Thank you again!

Subject: LRB 1758

Hi Lis,

Thanks for all of your work on LRB 1758/P2 so far. I do have one change for a P3 that we've been waiting to hear from the DNR from regarding potential funding for Lyme Disease awareness signage.

Could we add \$12,500 in additional expenditure authority in FY20 from the segregated parks account for the signage? According to my rough calculations, that should be about \$100 per sign, and we believe that should enough to cover all of their expenses for these signs.

Thanks!

Paul (FB) says (1)(mu)

PRELIMINARY DRAFT - NOT READY FOR INTRODUCTION

1 **AN ACT to amend** 20.370 (1) (mu); and **to create** 23.118 of the statutes; **relating**
2 **to:** signs informing about Lyme disease in state parks, state trails, state
3 recreational areas, and state forests and making an appropriation.

Analysis by the Legislative Reference Bureau

This bill requires the Department of Natural Resources, in consultation with the Department of Health Services, to design signs to raise awareness of Lyme disease, inform about how to prevent tick bites, and encourage people to check for ticks after visits to state parks, state trails, state recreational areas, and state forests. The bill requires DNR to post at least one sign in each state park, state trail, state recreational area, and state forest in a common area where it is most likely to be seen by visitors, such as a park entrance, trailhead, or campground. The bill appropriates \$12,500 in fiscal year 2019-20 for this purpose.

For further information see the **state** fiscal estimate, which will be printed as an appendix to this bill.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

4 **SECTION 1.** 20.370 (1) (mu) of the statutes is amended to read:
5 20.370 (1) (mu) *General program operations — state funds.* The amounts in
6 the schedule for general program operations that are conducted under ss. 23.09 to

1 23.11, 27.01, 30.203, 30.277, and 90.21, and chs. 29 and 169, for activities conducted
2 under the ecological inventory and monitoring program of the endangered resources
3 program, for the aquatic and terrestrial resources inventory under s. 23.09 (2) (km),
4 for providing the signage required under s. 23.118, and for payments of \$53,700 in
5 each fiscal year, to be credited to the appropriation account under s. 20.285 (1) (k),
6 to the University of Wisconsin System for outdoor skills training under s. 29.598.

7 **SECTION 2.** 23.118 of the statutes is created to read:

8 **23.118 Signage required.** The department shall, in consultation with the
9 department of health services, design signs to raise awareness of Lyme disease,
10 inform about how to prevent tick bites, and encourage people to check for ticks after
11 visits to state parks, state trails, state recreational areas, and campgrounds. No
12 later than the first day of the 6th month beginning after the effective date of this
13 section [LRB inserts date], the department shall post at least one such sign in each
14 state park, state trail, state recreational area, and state forest. The department shall
15 post the sign in a common area where it is most likely to be seen by visitors, such as
16 a park entrance, trailhead, or campground.

17 **SECTION 3. Fiscal changes.**

18 (1) **LYME DISEASE AWARENESS SIGNAGE.** In the schedule under s. 20.005 (3) for the
19 appropriation to the department of natural resources under s. 20.370 (1) (mu), the
20 dollar amount for fiscal year 2019-20 is increased by \$12,500 for the purpose of
21 providing the signage required under s. 23.118.
