Subject: amendment

We are going to need an amendment to deal with the following items:

- 1) There is a flag on fixing the BOR language to make sure we have all the cross references:

"The draft does not make the required change to Wis. Stat. § 70.511 which applies to virtually all refunds payable for manufacturing property and to most refunds obtained from the City of Milwaukee that do not go to court because Milwaukee's BOR typically meets after the taxes are paid. How about something like this?

70.511(2)(a) If the reviewing authority has not made a determination prior to the time of the tax levy with respect to a particular objection to the amount, valuation or taxability of property, the tax levy on the property or person shall be based on the contested assessed value of the property. A tax bill shall be sent to, and paid by, the person subject to the tax levy as though there had been no objection filed, except that the payment shall be considered to be made under protest. The entire tax bill shall be paid when due under s. 74.11, 74.12 or 74.87 even though the reviewing authority has reduced the assessment prior to the time for full payment of the tax billed. The requirement to pay a tax timely under

this paragraph does not apply to taxes due and payable in 2020 if paid by October 1, 2020, or by any installment date for which taxes are due after October 1, 2020."

- 2) We want to add "forest products" to the WEDC report list
- 3) We want to make a change to the provider liability language to encompass the changes in the attached PDF (named section 98) with the exception of we do NOT want to change 60 days to 90 days. Leave at 60.
- 4) We want to make the following change to the Choice/DPI language:
SECTION 62. 118.38 (4) of the statutes is created to read:
118.38 (4) (a) During the public health emergency declared on March 12, 2020, by executive order 72, ~~if schools are closed for at least 10 school days in a school year~~
~~by a local health officer, as defined in s. 250.01 (5), or the department of health services, through October 31, 2020,~~ the department may do all of the following:
- 5) On the Out of State provider section, we want to mirror whatever the Governor did in his EO with it expiring 30 days post EO 72 (which is what they have in the EO as an expiration in their section on temporary licenses)

895.4801 Immunity for health care providers during COVID-19

emergency. (1) DEFINITIONS. In this section:

(a) "Health care professional" means an individual licensed, registered, or certified by the medical examining board under subch. II of ch. 448 or the board of nursing under ch. 441.

(b) "Health care provider" has the meaning given in s. 146.38 (1) (b) and includes an adult family home, as defined in s. 50.01 (1).

(2) IMMUNITY. Subject to sub. (3), any health care professional, health care provider, or employee, agent, or contractor of a health care professional or health care provider is immune from civil liability for the death of or injury to any individual or any damages caused by actions or omissions ~~taken in providing services to address or in response to a 2019 novel coronavirus outbreak under circumstances that satisfy~~ all of the following:

(a) The action or omission is committed while the professional, provider, employee, agent, or contractor is providing services during the state of emergency declared under s. 323.10 on March 12, 2020, by executive order 72, ~~relating to the 2019 novel coronavirus pandemic and for~~ or the ~~60-90~~ days following the date that the state of emergency terminates.

(b) The actions or omissions relate to health services provided or not provided in good faith ~~occur during the person's good faith response to the emergency described under par. (a)~~ or are substantially consistent with any of the following:

1. Any direction, guidance, recommendation, or other statement made by a federal, state, or local official to address or in response to the emergency or disaster declared as described under par. (a).
 2. Any guidance published by the department of health services, the federal department of health and human services, or any divisions or agencies of the federal department of health and human services relied upon in good faith.
- (c) The actions or omissions do not involve reckless or wanton conduct or intentional misconduct.

(3) APPLICABILITY. This section does not apply if s. 257.03, 257.04, 323.41, or 323.44 applies.

Heather,

In the bill, the temporary credentials for former Wisconsin health care providers expire 90 days after the end of the public health emergency under EO 72.

Should the amendment also change the expiration date for those credentials to 30 days after the end of the public health emergency?

Thanks,
Konrad

So, what they told me (They being DPI and School Choice) was that they didn't think as previously drafted there would be enough time after the end of the EO - being mid August. They thought that October would work. So I would say that the idea is to have it be October, and not 120 days after October.

If that doesn't make sense, feel free to give me a call - hime # 608-884-4488.

I have a quick question about the DPI part of your amendment. Specifically, the draft gives DPI the authority to establish alternate deadlines. Under the bill, the authority is for deadlines beginning on the first day of the emergency and ending 120 days after the last day that schools are closed. With the new emergency window of March 12 – Oct 31, what is the intent for the authority to establish alternate deadlines? Should it be Oct. 31 or 120 days after October 31?

Hi Heather,

Regarding the amendment request below related to surprise billing, I have removed the reference to the federal secretary's declaration and added the 60-day trailer for the language on page 54, lines 22-24 and p. 55, lines 15-17 of AB 1038. Please let me know if it was not your intention to make this change in both of these places in the bill.

Tad, this would work in closing the gap for how long counties have to settle up taxes. One note would be that the underlying taxing jurisdiction (munis, Techs, school districts) will be without any collections the county made on July 31 until September 20th. Just letting you guys know that.

If Heather agrees, I think this is the framework of something that could work for drafting instructions.

We would allow counties and municipalities to waive or reduce late fees/penalties. The suggested mechanism would be an authorizing resolution or action from the county followed by the municipality taking similar action. They could apply this on a general or case by case basis.

It looks like we could keep the October 1st date, but move the settlement date to September 20th. The settlement date should only be moved to September 20th in places where the counties and municipalities have enacted either a full or partial waiver of fines/late fees. I think it makes sense to require partial payment under 74.29 (1) on August 20th to the extent that partial taxes, fines or forfeitures have been collected. Rick or Al, do you have thoughts on that?

As Heather indicated, these provisions would only be in effect for this year.

For reference, I've included below the original language that the counties suggested, which I don't think accomplishes our intent.

Let me know if what Heather and I have described is unworkable or if there are more questions we need to answer.

Thanks,

Tad

25) INTEREST ON LATE PROPERTY TAX PAYMENTS. Notwithstanding ss. 74.11, 74.12, and 74.87, for property taxes payable in 2020, after making a general or ~~ease-by-ease~~ finding of hardship, a taxation district may provide that an installment payment that is due and payable after April 1, 2020, and is received after its due date shall not accrue the full statutory interest or full statutory penalties if the total amount due and payable in 2020 is paid on or before October 1, 2020. The taxation district may waive interest or penalties in whole or in part provided that the waiver is applied equally to all property owners in the taxation district. A taxation district may not proceed with the full or partial waiver of interest and penalties under this section unless the county board of the county in which a taxation district is located has adopted a resolution authorizing the taxation district to proceed with the waiver. Interest and penalties shall accrue from October 1, 2020, for any property taxes payable in 2020 that are delinquent after October 1, 2020. If, with approval of the county board, a taxation district proceeds with the full or partial interest and penalty waiver, a county is not required to comply with August settlement requirements in s. 74.29(1) for all local taxing jurisdictions within the county until September 20, 2020.

We expect to be getting some language for this property tax issue, and I will forward when I have it.

The basics would be this:

Allow a municipality to choose to waive or reduce interest, and if the county agrees to waive penalties also (sometimes apparently the muni charges interest and the county charges penalties) that they could do so on a case by case hardship basis.

The August 20 date would move to no later than Sept 20. This idea being that there would be less time for the County to have to float.

All for this year only.

Any thoughts/concerns? Counties are OK with it.

Is this what you have in mind?

A taxation district may not waive interest and penalties as provided in this subsection unless the county board of the county where the taxation district is located first adopts a resolution authorizing such waiver, and establishing criteria for determining hardship, and the taxation district subsequently adopts a similar resolution. A county that has adopted a resolution authorizing the waiver of interest and penalties under this subsection shall settle any taxes, interest, and penalties collected on or before July 31, 2020, on August 20, 2020, as provided under s. 74.29 (1), and settle the remaining unpaid taxes, interest, and penalties on September 20, 2020. The August 20, 2020, settlement shall be distributed proportionally to the underlying taxing jurisdictions.

Subject: Interest and penalties

This is what I worked out after talking with Al. Let me know if you wish to have the county decide on the hardship consideration as part of adopting a resolution.

A taxation district may not waive interest and penalties as provided in this subsection unless the county board of the county where the taxation district is located first adopts a resolution authorizing such waiver and the taxation district subsequently adopts a similar resolution. A county that has adopted a resolution authorizing the waiver of interest and penalties under this subsection shall settle any taxes, interest, and penalties collected on or before July 31, 2020, on August 20, 2020, as provided under s. 74.29 (1), and settle the remaining unpaid taxes, interest, and penalties on September 20, 2020. The August 20, 2020, settlement shall be distributed proportionally to the underlying taxing jurisdictions.

I can't find the changes to the out of state providers – I see the date change from 90 to 30, but I don't see the part that changes the provisions to match the EO (the gov's language was apparently way broader in terms of letting out of state people start practicing before ever actually applying for the credential, etc)

Am I missing it?

Fern,

Regarding the changes in the amendment 1442 that we discussed, I checked with Heather in the Speaker's office and they would like the reference to be to the 2019-20 school year only.

Robin wants to make these changes in red, I don't find them unreasonable. I would like to get them put in. He is going to call fitz about it if you have concerns, so I want you to know this is probably going to be a topic.

I don't know that the part "medical treatment" means and will get clarification.

Subject: Sec. 33, work comp

Jenny, Heather, and Dan,

We get that this is a compromise bill, but if amendments are forthcoming on the bill at all, is there a way to look again at Section 33 on work comp? Ideally the state would not create a presumption that an injury happened at work. By law in Wisconsin and in every state, an injury or illness must be work-related and arise out of and in the course and scope of employment. First responders, health care officials, and others who treat infected patients

could already be covered by worker's compensation currently if indeed the illness arose out of their caring for infected patients. This provision however would allow individuals who contract COVID-19 away from work to still make a compensable worker's comp claim if they work in the identified fields. Those are claims that are not rated for under current premiums paid by employers, which are typically local units of government in this case.

If the provision cannot be pulled entirely, I have two separate thoughts for your consideration. First, can the section be tightened? For instance, the term "other emergency services" is very broad. Can that be tightened? Perhaps also declare definitively that the person with the claim had to have been in contact with an infected person?

Here is potential language on those two items:

SECTION 33. 102.03 (6) of the statutes is created to read:

102.03 (6) (a) In this subsection, "first responder" means an employee of or volunteer for an employer that provides fire fighting, law enforcement, or medical treatment of COVID-19, and who has regular, direct contact with, or is regularly in close proximity to, patients or other members of the public requiring emergency services, within the scope of the individual's work for the employer.

(b) For the purposes of benefits under this chapter, where an injury to a first responder is found to be caused by COVID-19 during the public health emergency declared by the governor under s. 323.10 on March 12, 2020, by executive order 72, and ending 30 days after the termination of the order, and where the employee has been exposed to persons with confirmed cases of COVID-19 in the course of employment, the injury is presumed to be caused by the individual's employment.

(c) An injury claimed under par. (b) must be accompanied by a specific diagnosis by a physician or by a positive COVID-19 test.

(d) An injury claimed under par. (b) may be rebutted by specific evidence that the injury was caused by exposure to COVID-19 outside of the first responder's work for the employer.

Second, will the state entertain a fund to backfill these presumption claims? Insurance rates are not currently set to handle all claims of the individuals identified in the definition of first responders as compensable claims, as Sec. 33 would require. Similar to keeping UI claims from increasing employer UI taxes, can we ensure that these WC claims automatically presumed to be from work do not increase employer insurance rates by funding them through the state, perhaps out of the federal funds coming WI's way? Particularly hard hit by these rate increases would be local units of government that have such emergency personnel.

Let me know if you have any questions on this.

Thank you for your consideration, and be safe!

RE: Effective date for Work Share portion of LRB-6132, page 33, line 24.

We appreciate all of the temporary changes made to the Wisconsin Work Share program, which will make the plan accessible to small businesses throughout the state. **We are urging you to please consider making the effective date for plans that are covered by these temporary changes retroactive to March 17, 2020, the date the official order to shelter at home was issued.**

Businesses began using the Work Share program as a way to retain their employees during the shelter at home order, because those businesses are not receiving revenue due to reduced/no business activities. Many of these businesses would benefit from the flexibility that the temporary changes allow - in many cases, preventing further layoffs or leaving the program and putting more employees on full unemployment benefits.

To not allow businesses who entered the Work Share program after March 17, 2020 to take advantage of the temporary changes is in essence punishing them for being proactive to save employee jobs at early stages of this crisis.

Please make these provisions apply to the businesses who need them most,
